CREPE MYRTLE AT CALIFORNIA'S CAPITOL

The Felix Gillet Nursery

C. E. PARSONS, Proprietor

1871

NEVADA CITY, CALIF.

1940

Please Observe the Following When Ordering

OUR NURSERY, 2600 feet above sea level, in the Sierra Nevada of NORTHERN CALIFORNIA, produces hardy plants that ripen up, as they should, in the fall and are in perfect condition for planting long before those produced at lower elevations and latitudes. Our latitude is the same as Southern Ohio. WE CAN SHIP ANYWHERE. No mealy bug, white fly or other pests are found here.

SHIPPING SEASON—From October 25th to May 1st. Stocks in pots and cans, at any time. FILBERTS, November 15th to March 15th.

ORDER EARLY—Place your orders as far in advance as possible. We can give you better selection and service by having the order in hand before the rush season is on. It is better to have your stock shipped before you are actually ready to plant, if possible, heeling it in on your grounds. **How to heel in trees**, see below. Movement of nursery stock is governed by weather conditions.

TERMS—Cash with order, or on orders placed long in advance of shipping date, 25% cash will hold same. Expense of handling will not permit acceptance of tree orders for less than \$1.00, except where so stated or, unless called for at the nursery. Except where marked Postpaid, **Parcel Post charges must be included**; any excess will be refunded or extra plants sent for same. Freight and express are paid by purchaser, except as noted.

Five trees or plants OF A KIND at 10 rate; 50 at 100 rate, except as noted.

Where 10 ornamental trees or shrubs of one variety are ordered 10% reduction from list prices.

CALIFORNIA STATE TAX—State law requires us to collect 3% tax on all sales for shipment within the State. Please add this to your remittance. Shipments to points outside California require no tax.

SUBSTITUTIONS—None made unless so instructed.

ADJUSTMENTS—We promptly and cheerfully correct any errors made by us, if promptly advised on receipt of stock.

Prices in This Catalog Supersede All Previous Quotations and are Subject to Change.

1871 — OUR GUARANTEE — 1940

Sixty-Nine Years' Continuous Service of This Nursery Is Your Guaranty of Fair and Liberal Dealing.

Replacement—In the event that any nursery stock sold by us should prove untrue to name under which it is sold, we hereby agree on proper proof of such untruthfulness to name to replace that portion of the order proved untrue to name, or to refund the purchase price thereof. Except for such liability, and in respect to all nursery stock or seeds sold by us, we give no warranty, express or implied, other, than that all stock is guaranteed to pass government inspection, and comply with all California state specifications as to grade, quality, etc.

Out of State Orders. Every shipment will carry a certificate of inspection issued by the Agricultural Commissioner of this county. We endeavor to keep ourselves informed on the quarantine laws affecting shipments of nursery stock to any point in the United States, to prevent any delay in the forwarding of orders.

Bank Reference:

Bank of America, N. T. & S. Association, Nevada City, Calif. Courtesy requires that you send them a stamped return envelope.

PLANTING INSTRUCTIONS

On receipt of Plants if not to be planted at once, heel them in as follows:

How To Heel-in Trees

Unpack them without exposing the roots to the air longer than necessary. Dig a trench in loose soil 2 feet wide and 14 inches deep. Cut strings and put the trees in side by side and cover the roots with fine earth, being careful that it is well filtered in among the roots to keep them moist. Water copiously when the trench is half full; fill trench to same depth as trees stood in the nursery row. Lean trees toward south-west.

Pruning Roots and Tops. With sharp knife trim off broken roots and bruised ends of roots of all deciduous trees and shrubs. The tops of deciduous trees and shrubs should be pruned in proportion to the amount of roots lost in transplanting. Usually remove 1/3 of growth on deciduous trees and shrubs. Most evergreens from cans or that are balled need no pruning when planted. If requested to do so we will prune back all plants before shipping. Do not top Birch trees, although the lateral branches may be shortened in.

After Care. While of the greatest importance, proper planting is only the beginning. Trees may live even though neglected, but will fail to render the satisfaction and pleasure that is possible if well cared for. Never let trees get dry during the first summer. When you irrigate, see that they get a thorough soaking. This is vastly better than giving them a little water at a time. Keep the ground around your plants and trees thoroughly loose. A good mulch is a great help. Our stock properly planted and cared for will repay any little additional expenditure of time and fertilizer.

The Importance of Staking. Most deciduous trees should be firmly staked when planted, as this will prevent heavy winds from loosening them and insure a straight growth. In fastening the tree to the stake, wrap some burlap around the body of the tree first so as to prevent chafing.

Wire Tags. Should be removed when planting or they will girdle tree.

Safety and Protection. In nearly all cases it is advisable to give the trunk of deciduous trees protection to guard against sunburn. This is done by giving the trunk a thorough whitewashing to the first branches and then placing the Tree Wraps listed on Page 16.

A GOOD WHITEWASH FORMULA IS:

5 pounds lime (unslaked)
1/2 pound table salt
1/4 pound sulphur

Mix the dry ingredients, and pour slowly into a pail of water, stirring constantly. The whitewash is applied with a brush and should be the consistency of thick paint. Apply this at once when tree is planted.

Walnuts, Pecans, Other Nuts

FRANQUETTE WALNUT

WALNUTS

	Each	6	12	100
6 to 8 ft.....	\$1.60	\$9.00	\$16.20	\$115.00
4 to 6 ft.....	1.35	7.50	14.40	100.00

50 at the 100 rate.

Grafted on two-year Northern California Black. Others may quote lower prices on Walnuts, but the root-pruned trees we offer with many fine roots to enable the tree to quickly re-establish itself are worth the extra cost.

A 30-INCH YUCCA TREE PROTECTOR FREE WITH EACH WALNUT

Vrooman Franquette. Very hardy, late blooming. Very large handsome nut of extra fine quality, commanding 5 cents per pound premium. Resists blight. Thomas Black (see below), will pollinate Franquette.

Payne Seeding. Nut as large as Franquette, with thin shell; kernel of very good quality. Production heavy and bears young. Tree is smaller than other varieties. 4 to 6 ft. size only.

Cluster Mayette. A self-fertile good sized, good quality nut that blooms mid-season, with Eureka. Bears young. A good home orchard variety. Sets nuts in clusters of two to four.

GRAFTED BLACK WALNUTS

	Each	Per 10	Per 100
5 to 6 ft.....	\$1.50	\$12.50	\$100.00

5 at 10 rate; 50 at 100 rate.

Grafted on Northern California Black Walnut.

Thomas. An improved Eastern Black Walnut. Cracks out the meat in whole or large pieces. Nut and kernel large, excellent quality. Abundant and early bearer. Thomas is rated as good pollenizer for Franquette.

NORTHERN CALIFORNIA BLACK WALNUT SEEDLINGS

	Each	5 to 10	50 to 100
4 to 6 ft., per each.....	\$.50	\$.45	\$.30
3 to 4 ft., per each.....	.40	.35	.25

PECANS

Nellis. This splendid Pecan originated in California. The nuts are of average size, of the most desirable long-pointed pecan shape, and with a very thin shell, the whole meat shelling out very readily. It is said to be self-fertile. 4 to 6 ft., \$2.25 each.

ALMOND

	Each	10
4 to 6 ft. per each.....	\$.60	\$.50

Varieties—Drake and Nonpareil, which should be planted together. Best kinds for home use.

BUTTERNUTS

Juglans cinerea. The good old butternut so many of us remember gathering in our youth. Makes a good shade tree. Meats are sweet and rich. 8 to 12 inch, 35c; 12 to 18 inch, 50c; 18 to 24 inch, 75c; 2 to 3 ft., 85c.

HICKORY NUTS

Shagback. The sweetest nuts of all. Makes stately tree. 6 to 8 inch, 25c each. Hickory nuts to eat, 25c lb.; 3 lbs. for 75c; 5 lbs. for \$1.00; 10 lbs., \$1.75. Postpaid to Fourth Zone.

FRUITS - GRAPES - BERRIES

This list of fruit trees has been selected for Home use and are all splendid sorts. Other varieties can be supplied in quantity.

Write for special prices on 300 or more or other kinds than listed.

See Page 16 for Tree Guards in Quantity

APPLE

	Each	6	12	100
2 yr. branched 4-6 ft.....	\$.65	\$3.60	\$6.60	\$40.00

50 trees at the 100 rate.

Fameuse (Snow)—Red striped with snow white flesh of the highest quality. Ripens in October.

Red Gravenstein—Red striped. Fall. Excellent quality.

Grimes Golden. High quality yellow winter. Productive.

Jonathan—Red. Late fall. Early bearer and productive.

McIntosh Red—Early fall. The highest flavor of all apples. Crisp and sprightly.

Red Delicious—Early winter. A fine eating apple. Productive.

Red Astrachan—July. Early bearer, good cropper. Does well in interior valleys.

Red Rome Beauty—Red. Winter. Best for baking. Blooms late. Early bearer.

Red Siberian Crab. Summer. Best for jelly.

Winesap—Red. Late winter. Latest keeper of all. Good for all uses.

Winter Banana—Yellow with red blush. Late fall. Youngest bearer of all.

Yellow Delicious—Late fall. Preferred by some, as of fine flavor.

Yellow Newtown Pippin—Late winter. A fine keeper, cooker, shipper, producer.

APRICOT

PEACH-NECTARINE

	Each	6	12	100
1 year, 4-6 ft.....	\$.50	\$2.75	\$4.80	\$35.00

Apricot. Wenatchee Moorpark. Very large, productive and finest quality.

Nectarines. Gower. White flesh. Red skin. Freestone. **Boston.** Yellow flesh. Freestone.

PEACH

Champion. White freestone. Hardy, Delicious. August.

Early Elberta—Yellow freestone. August. All around good peach.

Hales Early—White freestone. July. Best early eating peach.

J. H. Hale—Large yellow freestone. August. Canning or eating.

Golden Jubilee—Yellow freestone. Elberta type, but one month earlier. Best early yellow.

Rochester—August. Large. Yellow freestone. Finest quality.

Tuscan Cling—September. Yellow canning sort.

CHERRY

	Each	6	12	100
2 year, 4-6 ft., branched.....	\$.75	\$4.20	\$7.80	\$50.00

Mazzard Roots

Royal Ann. The canning cherry. Pollenized by Black Tartarian. White with blush cheek.

Black Tartarian—Large, of fine flavor. Self-fruitful.

Bing—Very large, firm, fine quality. Pollenizer: Black Tartarian.

Montmorency—Large, red, sour type. Makes those cherry pies of culinary fame. Self-fertile.

ASPARAGUS - BERRY PLANTS - RHUBARB

STRONG FIRST GRADE PLANTS

PERFECTION CURRANTS—2 Year, No. 1.....	.35	1.50	2.50		
GOOSEBERRY—Oregon Champion, 2 Year, No. 1.....				Same price as currants.	
ASPARAGUS—Mary Washington.....			.40	1.35	2.50
MASTODON STRAWBERRY—Everbearing.....			.35	1.25	2.00
PROGRESSIVE STRAWBERRY—Everbearing.....				Same price as Mastodon.	
GEM STRAWBERRY—Everbearing.....				Same price as Mastodon.	
ROCKHILL STRAWBERRY—Everbearing. New. Makes no runners—Of fine quality. Bears longer and more berries than other kinds.....			.75	2.75	5.00
RHUBARB—Embree Cherry—(See below).....	.20	1.25	2.25		
RHUBARB—Strawberry—(See below).....	.25	1.35	2.50		
RHUBARB—Giant Crimson Winter.....	.15	.75	1.25		
Embree and Strawberry Rhubarb are extra sweet and tender. True divisions.					
*These are strong tip-rooted plants.					

Fruit trees of assorted kinds may be cumulated to take lower rate: thus 6 different kinds of fruit trees will be entitled to the six price for each class. 50 at the 100 rate.

FREE 18-INCH TREE GUARD WITH EVERY FRUIT TREE

FIG

1-year, 4 to 6 ft. (Same price as 2 yr. apple.)

Brown Turkey. High quality large fruit.

Black Mission. Large and fine.

White Magdalene. Quite hardy and delicious flavor.

GRAPES

Grapes. For home use. No. 1 grade. Each, 20c; six, 75c; dozen, \$1.20; 100, \$5.00. Listed in order of ripening.

Black Hamburg	Muscat
Rose of Peru	Malaga
Ribier	Thompson Seedless
Red Malaga	Flame Tokay

American Grapes. CONCORD, black. NIAGARA, white. Both are high quality. Fine for arbors. Hardy. Used for grape juice, jelly and eating fresh. No. 1 grade. Each, 25c; six, \$1.20; dozen, \$2.00.

Early Muscat. This Extra Quality tightly bunched amber fleshed variety ripens a full month before the Standard Muscat. 25c each, 6 for \$1.20.

Medlar. This tree fruit, about the size of a plum, is said to be very beneficial to rheumatic sufferers. Is quite ornamental, having attractive foliage, ruddy hues in the fall. Strong trees, 4 to 6 ft., \$1.50 each.

PEAR

(2 Year, Branched—Same Price as Apple)

On French Pear Roots

Bartlett—Well-known late summer sort.

Comice—High quality table fruit. Fall.

Seckel—Small size but of high vinous, spicy quality. Late summer.

Winter Nelis. Medium size, fine flavor. Early Winter.

PERSIMMON

Hachiya, very large bright red. 6 to 8 ft., \$1.25.

Fuyu—This new persimmon is never puckery. Quite firm even when fully ripe. Fruits large, young and heavy bearer. 4 to 6 ft., \$1.25.

PLUM

2-year branched 4 to 6 ft. (Same price as apple.)

Climax. Very large, heart-shaped. Deep red.

Green Gage. Greenish yellow for canning.

Hungarian—A very large hardy plum. Fine either fresh or canned.

Satsuma—Late. Large round. Skin and flesh red.

Yellow Egg—A hardy fine quality fruit. Often canned.

Pomegranate. Variety. Wonderful. Very large and juicy. 3 to 4 ft., 50c.

Quince. Variety Smyrna, 3 to 4 ft., 50c.

Postpaid to Fourth P. P. Zone

HOW TO PLANT AND GROW THE CHESTNUT

Where to Plant—It grows like a regular native tree here and in the Sierra Nevada Mountains and wherever the Black Oak is found will be ideal conditions. They are also at home in the Valleys and are doing well near the coast. Immense trees can be expected on the deep, heavy soils. They take kindly to adobe.

How to Plant—On heavy, rich soil plant 60x60 feet. Poorer land 50x50, or if space is limited, 40x40. The chestnut requires plenty of light and air. Sixty feet between the rows and 30 feet apart in the row is the best plan. This takes 24 trees to the acre. Take out every other tree in row before they crowd. This plan allows inter-cropping of the wide row for a number of years. Seedling trees may be used for the interplants.

Soils—The chestnut does best on soils that are slightly acid, deep and fertile. This tree can not be expected to resist Oak Root fungus.

Cross-Pollination—More than one variety should be planted, both for benefits of cross-pollination and to lengthen out the harvest season. Our Quercy and French Marron varieties have an abundance of pollen.

Planting—Dig holes 2x2 feet all around. With sharp knife remove broken roots and cut ends of all roots to sound wood. Remove all buds below ground-line. Plant tree not deeper than before. Use only top soil (well firmed with ball of foot) about the roots. Tie tree firmly to stake soon as planted. Set stake while planting to avoid driving it into roots. Cut back whip trees one-half and allow one strong shoot to grow to six feet where it may be headed. Branched trees cut back to 3 or 4 branches and head in branches to 3 buds from trunk. Encourage growth to one central leader, which is Nature's way. **DON'T TRAIN TO VASE FORM**, as trees will split apart with weight of the crop. Shade trunk for first few years with Yucca Tree Protectors (see page 16) or two thin boards.

Irrigation—When well established they will bear bountifully without irrigation. If water is available, **irrigation should be practiced**. Heavy irrigation followed by cultivation three weeks before nuts begin to fall is highly desirable, to loosen nuts from burr.

Cost to Plant—60x60 ft. square method takes 12 trees. Triangle method, 14 trees per acre, which costs only \$7.00 to \$15.00 per acre for grafted trees.

DESCRIPTION OF GRAFTED TREES

CASTIVA

Castiva. Our introduction. About the size and shape of Large American Sweet. Of fine quality. Sweet. Pellicle peels free from kernel. Matures early in season. Quercy pollinates this variety. Original tree has 60-foot spread. Bears heavily. Nuts fall free from burr.

See page 15 for a
frilly leaved new
ornamental CHESTNUT

COLOSSAL. Our introduction. An Asiatic hybrid. Extremely large nuts that FALL FREE FROM THE BURR. Ripens in September and brings high prices, being first in the market. Quality good. Quercy pollinates it. Using 1 Quercy to 8 Colossals, this variety produces BIG PROFITS. The nuts are big, the crop is big, the profits are big. Matures nuts in September. Whole crop is down in 10 days or two weeks. Original tree produced 300 lbs. in 1939 and it is a small tree, compared with other chestnuts.

COLOSSAL. Actual Size.

PLANT CHESTNUTS For Heavy and Regular Bearing

Requiring but occasional pruning, no spraying, no propping, no ladder climbing—the Chestnut is produced at very low costs. After the tree has been in three or four years no pruning is necessary. Let it grow naturally. Old trees should have the bushy growth removed from inside every four or five years. According to age yields of 2000 to 5000 pounds per acre may be expected. At the 1938 wholesale price of 10c per pound, the cash return will run from \$200 to \$500 per acre. Chestnuts bloom in June and are never injured by frost.

Quercy. A French Marron of large uniform size. Introduced many years ago by Felix Gillet. Nut is round and glossy, dark rich brown, selling instantly on its appearance. Of heaviest consistent bearing. The most precocious bearer we have ever seen. Sets burrs three months from the graft. Matures nuts late and is in prime condition for the holiday trade. While not as good eating quality as the others listed, it can be counted on to stack up tonnage and profits. 80% fall free from burr.

QUERCY
Covers a Silver Dollar

Use Chestnut Trees for Shade

Besides those priced above we have extra large branched trees. (Some in bearing) 6 to 9 feet high, \$2.00, \$2.25 and \$2.50 each.

Large American Sweet. Five times the size of native American sweet and nearly as good quality. Matures very early, bringing top prices. Very attractive in form and color. A good bearer and strong grower. Nuts fall free from burr and are uniform in size. We strongly recommend this variety.

QUERCY
BEARS
YOUNG

Just see the number
of burrs on these four
months old trees, right
in the nursery rows.

LARGE AMERICAN SWEET
Covers 50-Cent Piece

SEED GROWN TREES

French Marron—Seedlings of Quercy, one of the best of the large Marrons. Regular bearers of large, fine nuts. They do well under California conditions and are best for planting in Coastal counties.

Hybrid—These are from our Large American Sweet variety. Trees of this type are likely to produce fine new sorts. Most of them drop free from burrs and are of sweet taste.

Italian or Spanish—Seedlings of the European chestnut. While not so large as the Marron type, they bear good quality nuts of fair size and do well under severe conditions.

Japanese. Very large. Hardy. Said to be Blight Resistant. Bears young.

Mollissima—Known as "Chinese Hairy Chestnut," and bears quite young. Nuts large, good quality with easily peeled skin. It is more blight-resistant than any other species.

FILBERT OR HAZEL NUT

EASILY GROWN—EASILY SOLD

**No Better Crop for Mountain Lands or Foothills—
Give Them Water, They'll Give You Nuts**

A Splendid Ornamental Tree or Large Shrub

Flowers of The Filbert

**Upper, pistillate.
Lower, staminate.**

Blooming habits of the Filbert are unlike fruit trees, in that after blooming the tree continues dormant. Until May, four months after blooming only are the nuts visible, being protected from killing frosts within the pistillate bud.

Filbert Varieties

Barcelona. The best commercial variety; introduced and named by Felix Gillet. Our plants are therefore genuine, being direct from the **original mother tree**. Its value for the grower of market nuts lies in its heavy yield, large size, good appearance, strong growth and disease resistance. The **nuts are not retained in the husks**. All drop to the ground over a period of three weeks during September. One inch broad by 3/4-inch thick. Round or nearly so, color brown, bright and handsome. Borne singly and in clusters of two to six. Will bear well in part shade.

***DuChilly.** Large, over 1 inch long by 3/4-inch broad, flattened. Excellent quality, good bearer. It pollinizes Barcelona and is pollinized by Barcelona, Nottingham and Daviana.

***Daviana.** Nut large, roundish oblong, excellent quality. One of the best pollinizers for Barcelona, DuChilly and Purple Leaf.

***Merville de Bollwiller.** A round, point-nut of good size and quality.

Purple Leaf Aveline. A beautiful ornamental variety. Believed to be pollinated by Daviana. 75c to \$2.50 each.

***Nottingham.** Probably the best pollinator for Barcelona and DuChilly. Nuts are small but good flavor and tree bears regularly good crops. Trees of this variety are lighter grade than Barcelona. Prices on Nottingham are 15c higher than the list.

***These varieties will pollinize Barcelona and will be sold only in connection with Barcelona.**

FILBERT SCIONS

Filberts. Barcelona, DuChilly, Kentish Cob, Daviana, Red and White Aveline, 5c per foot. Postpaid. Nottingham, Giente de Halles. Imperial. Noce Lunghe, Emperor and twenty other scarce varieties, 10c per foot. Postpaid. Minimum order scions, \$1.00.

BRANCH OF BARCELONA VARIETY. ARROWS SHOW NUTS.

PLANTING AND CULTURE OF FILBERTS

METHODS OF POLLENIZING

(A) Plant solid to Barcelona. After third year top, graft one limb of each tree to Nottingham or White Aveline. Then put in grafts scattered through the planting of DuChilly, Daviana, White Aveline, Cosford; either several or all, to extent of ten assorted pollinizers per hundred of Barcelona. **We will furnish grafting wood of these varieties.**

(B) Use 11% assorted pollinizers scattered through the planting, as shown above, to every hundred Barcelona. Every third tree in every third row planted to a pollinator is 11%. This method cuts down the number of Barcelona trees per acre and yield will probably be less than by first plan.

(C) Is a combination of the two methods. Experience has shown, that it is best not to depend on any one pollinizer. Owing to the peculiar blooming habits of the filbert, a known good pollinizer will fail one year and act favorably the next. This is particularly true in some districts. **Therefore, we advise the planting of several pollinating varieties in every commercial planting.**

DISTANCE APART TO PLANT

On good soils, plant 20 to 25 feet apart. On poorer soil, 16 to 18 feet. Either square or triangular planting is satisfactory. For windbreaks or hedge-rows, 6 to 10 feet.

FOR GOOD GROWTH

Plant carefully with root-crown not over 3 inches below surface. Leave basin for irrigating.

FOR GOOD HEALTH

Mix one-half to one pound BONE MEAL with soil that goes about the roots. **Later Apply 1/4 to 1/2 pound**, according to size of tree, of Nitrate of Soda or Sulphate of Ammonia, in two applications. First, as buds are starting; second, 3 weeks later. Hoe in or scatter over root area.

FOR SAFETY

Shade stem of your tree with YUCCA TREE PROTECTORS (see page 16 for prices) or by two thin boards, V fashion, southwest side.

FOR GOOD CULTIVATION

Irrigate in basin directly over roots the first two years and cultivate regularly. **Plant early in spring as possible. Plant cover crops suitable to your location.** (See your County Agent about same.)

SOILS FOR FILBERTS

They will grow in most any soil, shallow or deep, as they are shallow rooted. Best results are obtained on soils that are not heavily acid, but a slight acidity is not harmful.

PRICE LIST OF FILBERT TREES

Our Barcelona trees are all propagated by layers from the **ORIGINAL MOTHER TREE WHICH STILL STANDS ON OUR GROUNDS** and are mostly low branched trees, as they should be. Our prices for these trees are very reasonable. When you make comparison, keep quality and not price in mind. All are heavily rooted transplants.

	Caliper		Each	10	100

GILLET'S CONE BEARING EVER- GREENS 50 Kinds

CEDRUS

C. atlantica. "Mt. Atlas Cedar." Large trees of open growth and pyramidal form. When young, branches are somewhat stiff but with age they become beautifully graceful with drooping branches closely covered with dark green foliage. 6 to 8 inch, 50c; 8 to 12 inch, 75c.

C. Atlantica Glauca. "Blue Mt. Atlas Cedar." The foliage is a beautiful silvery blue. One of the very finest conifers for an accent point in the landscape. Makes medium size tree. Grafted plants, B.B., 6 to 7 ft., \$7.50; 4 to 6 inch grafted plants, 75c.

C. libani. "Cedar of Lebanon." Vigorous growth; wide-spreading, horizontal branches; dark green foliage; massive and picturesque. Large specimens only boxed. Ask for prices.

CEPHALOTAXUS

C. pendunculata fastigiata. "Korean Yew." Interesting tree with dark green yew-like foliage, known as "False Yew." Growth compact, upright wide column, useful in small places and rock gardens. B.B., 24 to 30 inch, \$2.25.

CHAMAECYPARIS

Trees valuable for garden and park purposes, and in the dwarf sizes admirably adapted to porch and interior decorations. Habit varies from almost dwarfs to very large trees.

C. Nootkatensis glauca. (R). "Blue Nootka Cypress." 10 ft. Rare. Handsome dwarf tree, pyramidal shape, with blue foliage; branchlets with slightly pendulous tips. B.B., 15 to 18 inch, \$2.00; 18 to 24 inch, \$2.75; 24 to 30 inch, \$3.50; 30 to 36 inch, \$4.50.

C. Obtusa nana. (R). A very dwarf form. Famous miniature Japanese Cypress. A plant of artistic elegance for house window box or rock garden. 4 inch pots, 85c.

C. obtusa Crippsi. 6 ft. A beautiful and rare species of the Japanese Hinoki Cypress with graceful arching flattened, fern-like foliage, dark green, shading to bright gold at the tips. Of small size and prefers partial shade. 4 to 5 ft., \$3.50.

CUPRESSUS. CYPRESS

Tall or medium sized trees, usually of rapid erect growth. They thrive in almost any good soil and are useful landscape material for quick or permanent effects. Cypress keep their form better with little or no irrigation.

C. Arizonica. "Arizona Cypress." 40 ft. Beautiful bluish-green cypress of narrow, pyramidal form. Suitable to the hot dry sections of the interior. Gal. cans, 3 to 4 ft., 60c. B.B., 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.75.

C. sempervirens fastigiata, "Italian Cypress." A tall, slender-growing variety with straight branches lying close to the stem; for formal effects and other landscape work. Balled, 4 to 5 ft., \$2.25.

CRYPTOMERIA. Plume Cypress

C. japonica elegans. "Plume Cypress." 12 ft. A low, dense, bushy tree with spreading branches, soft, wavy foliage, bright green changing to charming bronzy red in fall and winter, B.B., 12 to 15 inch, 75c; 15 to 18 inch, \$1.00; 18 to 24 inch, \$1.25; 24 to 30 inch, \$1.50.

JUNIPERS

The junipers comprise a splendid collection of small trees. The growth varies from upright to spreading and trailing habit. Unequalled by any other plant for rock work, garden formal effects when small size is necessary. All Junipers are **HARDY**.

UPRIGHT GROWING JUNIPERS

***J. californica glauca.** "California Juniper." 8 ft. A rare handsome pyramidal tree of medium size, straight and spire like. Clothed to the ground with beautiful silvery foliage. Unaffected by heat, cold or drought. Very rare in cultivation. Gal. cans, 18 to 24 inch, \$1.75; B.B., 24 to 30 inch, \$2.25; 30 to 36 inch, \$3.00.

J. Excelsa stricta. "Greek Juniper." Very ornamental. Decidedly dwarf and conical in form, densely clothed with blue foliage. A distinct species of great beauty; an annual shearing keeps it trim. 8 to 12 inch, 75c; 12 to 15 inch, 85c; 15 to 18 inch, \$1.00.

J. Scopolorum hillii. "Hill's Silver Juniper." 8 ft. A fast growing cone of magnificent silvery white fine-needled foliage. An upright juniper of incomparable form and color. Grafted plants, 12 to 15 inch, \$1.25; 15 to 18 inch, \$1.75.

*Means native of California.

PROSTRATE JUNIPERS

Sizes determined by spread not height.

J. chinensis procumbens. "Trailing Chinese Juniper." Prostrate creeping variety. Blue green foliage, making a mat close to ground. Hardy. 8 to 12 inch, 60c; 12 to 15 inch, 85c; 15 to 18 inch, \$1.25.

J. communis depressa plumosa. "Andorra Juniper." New and exceptionally fine prostrate juniper. During spring and summer, bright green in color, changing in winter to purple-bronze of an exceedingly rich shade. 6 to 8 inch, 50c. B.B., 12 to 15 inch, \$1.35; 15 to 18 inch, \$1.50.

J. conferta. "Shore Juniper." A new creeping Juniper from the seashore of Japan which makes a dense carpet of blue-green foliage about one foot high. B.B., 8 to 12 inch, 85c; 12 to 15 inch, \$1.00; 15 to 18 inch, \$1.35.

J. Horizontalis Douglasi. (R.) "Waukegan Juniper." A creeping sort of soft blue foliage, not over six inches high. Rare and distinct from any other sort. Plentiful silver berries. Grows slowly. B.B., 8 to 12 inch, 75c; 12 to 15 inch, 85c; 15 to 18 inch, \$1.25.

J. sabina tamariscifolia. A very fine creeping Juniper seldom more than one foot high and attaining a spread of 6 or 8 feet, making a dense, compact mat of gray-green foliage which never changes color. 6 to 8 inch, 35c; 8 to 12 inch, 50c.

SEMI-PROSTRATE JUNIPERS

Sizes Indicate Spread and Not Height

Armstrong's Spreading Juniper. A new hybrid or sport, which is a fine new dwarf evergreen. It makes a dense mass of soft, grey-green foliage, about 2 feet high, and becoming about 5 feet across. Splendid for massing in the foreground of any planting. Thrives in sun or shade. Hardy. B.B., 15 to 18 inch, \$1.00; 18 to 24 inch, \$1.50; 24 to 30 inch, Fall, 1940, \$2.00.

J. chinensis Pfitzeriana. "Pfitzers Juniper." One of the finest Junipers in cultivation. Has bushy widespread horizontal branches, and forms an immense flat irregular head of bluish-green foliage, graceful in outline. Hardy. 6 to 8 inch, 35c; 12 to 15 inch, 75c; 18 to 24 inch, \$1.00; 24 to 30 inch, \$1.50.

J. chinensis sargentii blue. "Sargent Juniper." Forms low, dense mat of widespreading branches clothed with blue foliage of handsome texture. Hardy. Likes sun. An elegant juniper. 4 to 6 inch, 35c; 8 to 12 inch, 75c; 12 to 15 inch, \$1.00.

J. Communis depressa "Prostrate Juniper." 2 ft. A gray foliated plant, spreading six to eight feet, but not over two feet high. Can be kept smaller by trimming. Excellent in front of taller conifers. B.B., 12 to 15 inch, \$1.25; 15 to 18 inch, \$1.50.

*Means native of California. B.B. means dug with earth ball, wrapped in burlap.

JUNIPERS—CONTINUED

J. Communis depressa aurea. "Golden Prostrate Juniper." A bright golden form of above species. A bright note among more somber plants. B.B., 18 to 24 inch, \$1.75.

J. Sabina. "Savin Juniper." A semi-spreading shrub attaining 6 to 8 feet width by 2½ feet high. Can be pruned low. Foliage sage green. Useful in Evergreen groups and foundation of house. Extremely hardy. 6 to 8 inch, 35c.

LIBOCEDRUS. Incense Cedar

***Decurrens.** Small specimens and full grown trees are beautiful. Glossy green foliage sheds dust. Forms a perfect cone. No more satisfactory evergreen for California conditions. Grows rapidly. B.B., 2 to 3 ft., \$1.00; 3 to 4 ft., \$1.75; 5 to 6 ft., \$4.00; 6 to 7 ft., \$5.00.

PICEA. SPRUCE

P. Excelsa. "Norway Spruce." 30 ft. The quickest and most easily grown spruce. Adapts itself everywhere. Fine for Christmas tree on lawn or evergreen groups. Hardy. B.B., 3 to 4 ft., \$3.50 to \$4.00; 4 to 5 ft., \$4.00 to \$5.00; 5 to 6 ft., \$5.00 to \$6.00; 6 to 7 ft., \$6.00 to \$7.50.

P. Koyamai. "Koyamai Spruce." 40 ft. Of narrow pyramidal and slow growth. Rare and beautiful conifer from Japan, for lawn or evergreen groups. Hardy. B.B., 3 to 4 ft., \$3.50; 4 to 5 ft., \$5.00; 5 to 6 ft., \$6.00; 6 to 7 ft., \$7.50.

P. Sitchensis. "Sitka Spruce." Bluish foliage. Slow and compact growth. A beauty. Rarely seen in cultivation. Develops its beauty with age. Hardy. B.B., 3 to 4 ft., \$4.50.

PINUS. PINE

P. Coulteri. "Big Cone Pine." Gray foliage. Edible nuts. 3 to 4 ft., \$1.75.

P. excelsa. "Bhotan Pine." A graceful slow-growing tree with very long blue-green needles. This variety often trained to irregular shapes for rock gardens as branches are extremely flexible. B.B., 3 to 4 ft., \$2.50.

***P. Monophylla.** "Single Leaf Pine." Native of Nevada and Eastern slopes of the Sierra. A small slow growing type of compact habit and short stiff silvery needles. Seeds edible. B.B., 18 to 24 inch, \$1.50; 24 to 30 inch, \$1.75.

P. mughus. "Mugho Dwarf Pine." (R.) An excellent dwarf pine, globe shaped and erect branching. Very attractive, especially in spring when new growth resembles miniature candles. B.B., 12 to 15 inch, \$1.50 to \$2.25; 15 to 18 inch, \$2.25 to \$2.50.

***P. Ponderosa.** "Western Yellow Pine." Stout, spreading branches, forming a narrow spire-like head. Leaves long, dark green. A fine pine for quick effect. B.B., a few only ranging from \$1.00 to \$2.50.

***P. Sabiniana.** "Gray Pine." "Digger Pine." Stands drought. Picturesque. Large, edible seeds. B.B., 30 to 36 inch, \$1.50.

* Means Native of California.

PFITZERS JUNIPER

GILLET'S CONE BEARING EVER- GREENS 50 Kinds

INCENSE CEDAR

DOUGLAS SPRUCE

PODOCARPUS

Podocarpus macrophylla. "Yew Podocarpus." 20 ft. Small, upright tree with broad, soft yew-like needles. Worthwhile for the collector or seashore. Has peculiar flower with blue stem with red ball at end, unusual form. B.B., 24 to 30 inch, \$1.75.

RETINISPORA

R. Squarrosa veitchi. "Silver Cypress." (R.) Of broad pyramidal habit, but may be pruned any shape. Silvery-blue, billowy masses of foliage make this desirable. Sun or shade. Hardy. B.B., 18 to 24 inch, \$1.25; 24 to 30 inch, \$1.50.

SCIADOPITYS

S. verticillata. "Japanese Umbrella Tree." Of elegant conical habit and slow growth. A rare tree. 12 to 15 inch, \$3.50.

SEQUOIA

**S. Gigantea*. "Giant Sequoia." Big tree of the Sierras. A trim sturdy tree, with blue-green foliage, rapidly developing into perfect conical form. B.B., 12 to 18 inch, \$1.00; 3 to 4 ft., \$3.50; 4 to 5 ft., \$5.00.

**S. Sempervirens*. "California Coast Redwood." Rapid growth, tapering pyramidal habit. Does well in all parts of California. Makes beautiful avenues or specimen tree. Potted, 1½ to 2 ft., 50c; 24 to 30 inch, 85c.

TAXUS. YEW

T. baccata fastigiata. "Irish Yew." Foliage darkest green. The whole plant appears like a deep green column. B.B., 12 to 15 inch, 85c; 15 to 18 inch, \$1.00.

T. cuspidata capitata. "Upright Japanese Yew." 8 ft. This variety has a distinct central leader, producing a symmetrical upright specimen with glossy deep green foliage. For tall part shade or sun they are unequalled. Hardy. B.B., 18 to 24 inch, \$1.50; 24 to 30 inch, \$2.00; 30 to 36 inch, \$2.50.

**T. brevifolia nuttali*. "Western Yew." Beautiful spreading branches, rich dark green foliage. Its irregular growth, drooping branches and coral red berries makes a most interesting tree. Will grow in shade of large trees. Very rare in cultivation. 4 inch pots, 50c, 75c and \$1.00.

COLORADO BLUE SPRUCE

This gem of all Spruces grows slowly with compact branching, possessing a haughty character and is very effective as a lawn specimen due to its smaller type of growth. Hardy. They can be furnished in silvery blue, medium blue and green, needed types, as follows, balled and burlaped:

We have this splendid tree in quantity in wide range of size, color and form. The glistening silver blues are priced per foot of height at \$2.00 per foot; medium blue at \$1.50 per foot; green at \$1.00 per foot. State your price limit.

PSEUDOTSUGA

P. Douglasi glauca (*Pseudotsuga Taxifolia glauca*) "Colorado Douglas Spruce." (Douglas-fir)—70 ft. A splendid type of evergreen for specimen plantings. Possesses character and charm through its shapeliness and blue-green foliage. Grows rapidly and not so particular as to soil conditions. Makes beautiful lawn Christmas tree for small homes, as it grows neat and compact. Sets cones young. Some of those offered now being in cone. Hardy. B.B., 30 to 36 inch, \$1.25; 3 to 4 ft., \$2.50; 4 to 5 ft., \$3.00; larger specimens, \$1.00 ft.

**P. Douglasi*. "Douglas Spruce." "Oregon Pine." Green foliage type of the Pacific Coast. Excepting the Sequoias, our most gigantic tree. Growth erect, rapid, and symmetrical. Excellent living Christmas tree. Foliage soft rich dark green. 18 to 24 inch, \$1.00; 24 to 30 inch, \$1.25.

TORREYA . . . Nutmeg Tree

**Californica*. California Nutmeg. A rare native Evergreen, slowly attaining medium size, with narrow sharp-pointed lustrous leaves, 1½ inches long, with fruit like a large olive. Very ornamental. Gal. cans, \$1.50.

THUYA. Arbor Vitae

A group of very useful, hardy evergreens, thriving in a wide variety of soils and exposures for formal and semi-formal use.

T. elegantissima. "Golden Pyramid Arborvitae." 12 to 15 ft. Somewhat similar to the Beverleyensis, but not as tall, with a broader, more bushy base. The green foliage is tipped with an attractive golden bronze during most of the year, becoming bright yellow in the spring. 6 to 8 inch, 50c.

T. occidentalis pyramidalis. "Pyramidal arborvitae." A densely columnar type, most compact and erect of the entire species, at 12 feet high averaging 24 to 30 inches in diameter. Foliage a deep green, retaining color. The most popular pyramid for flanking the stoops in colonial architecture. B.B., 24 to 30 inch, \$2.00; 30 to 36 inch, \$2.50.

T. occidentalis Woodwardi. (R.) "Globe Arborvitae." A dwarf, dense, globular bush. Use to accent entrances, gateways, etc. 12x12 inches, \$1.75.

T. orientalis aurea nana. (R.) "Berkmann's Dwarf Golden." Dwarf compact shrub; foliage bright permanent yellow. Fine as low accent plant and in tubs. B.B., 8 to 12 inch, 50c; 12 to 15 inch, \$1.50; 15 to 18 inch, \$2.00.

THUYOPSIS

T. dolabrata. (R.) A Japanese Arborvitae of distinct form. Foliage dark green above with white lines beneath. Develops into handsome broad pyramidal tree in part shade. Unexcelled for that dark corner. Also variegated form. Potted, 15 to 18 inch, \$1.75.

TSUGA. Hemlock

T. canadensis. "Hemlock." 30 ft. Of rare grace and beauty. Does best in part shade, away from hot winds. Grows slowly. Can be pruned to low forms. B.B., 4 to 5 ft., \$4.50; 3 to 4 ft., \$3.00; 2 to 3 ft., \$2.50.

COLORADO BLUE SPRUCE

GILLET'S LEAFY EVER- GREENS

60 Kinds

See Page 10 Also

ABELIA

A. grandiflora. (S.) 6 ft. Small glossy leaves. Flowers an inch long, white flushed pink. Blooms profusely all summer. Fine foundation plant, improved by shearing. B.B., 8 to 12 inch, 40c.

Abelia Schumannii. 3 ft. Zero. New Abelia similar to *A. grandiflora*, but the beautiful pinkish-lavendar flowers are much larger and brighter and in profusion all through the spring and summer. Any soil, full sun or part shade. Small plants, 25c to 50c.

ARCTOSTAPHYLOS (Manzanita)

***A. glauca.** "Great Berried Manzanita." A Spanish name meaning little apple. Evergreen shrub with crooked branches; bark dark red; flowers white or pink in clusters; fruit berry like and brown in color, leaves silvery. For sunny situations. A striking acquisition to any garden if soil is acid. Gal. container. 18 to 24 inch, 75c.

AZALEA

These plants will glorify your garden. Many are loaded with flower buds. They are sensitive to lime, requiring marked soil acidity. This condition may be induced by application of Aluminum Sulphate, ½ lb. per square yard or 5 pounds per 100 square feet sprinkled evenly over surface and lightly worked in. (15c per lb.; 2 lbs., 25c; 10 lbs., 90c, not prepaid). Don't allow them to become over-dry. Plant part shade or with morning sun, in peat moss.

Altaclore. Deciduous. 4 ft. Brilliant yellow. Large flowers. Foliage red in autumn. 8 to 12 inch, \$1.00.

Mollis. Deciduous. 5 ft. Orange, apricot, yellow shadings. Large flowers in showy abundance. With flower buds, 9 to 12 inch, \$1.15; 12 to 15 inch, \$1.60.

Nudiflora. Very attractive with blooms early in May, varying in color from a beautiful pink to red-dish-purple. A good shrub for mass planting. 6 to 8 inch, 50c.

Kurume. 3 ft. Hardy to 15° above zero. Glorious blooms in early spring. Evergreen foliage. **Flame.** Single Bronzy Red. **Rosymorn.** Double cerise pink. 6 to 8 inch, 50c.

***Occidentalis.** 6 ft. A Californian with white to pink fragrant flowers. Deciduous. 8 to 12 inch, 50c.

BUXUS. Boxwood

This plant always gives an air of distinction to ones grounds. Useful for formal planting and as accent plants. Besides those listed we can furnish large specimens for fine estates. Write for prices and photographs.

Dwarf Boxwood. Trimmed globes. 6 to 8 inch, 50c; 8 to 12 inch, 90c; 12 to 15 inch, \$2.00; 15 to 18 inch, \$2.75; 18 to 24 inch, \$3.50.

Gold Tip Boxwood. This variety is prettily flecked with golden hue on tips of fairly large leathery leaves. Is particularly effective in part shade. 8 to 12 inch, 75c; 12 to 15 inch, \$1.50; 15 to 18 inch, \$2.00; 18 to 20 inch, \$2.25; 20 to 24 inch, \$2.50; 24 to 30 inch, \$2.75; 30 to 36 inch, \$3.00.

AUCUBA

A. japonica. "Gold Dust Laurel." (S.) 6 ft. Leaves almost covered with yellow dots. Excellent for tub culture or planting in shade. 4 in. pots, 6 to 8 inch, 35c; 8 to 12 inch, 50c; 12 to 18 inch, 75c; 18 to 24 inch, \$1.00 up.

CEANOTHUS

***C. prostratus.** (R.) "Indian Carpet." Entirely prostrate and evergreen. Small glossy, leathery leaves completely cover the ground. Stands tramping, drought and severe cold. Flowers violet blue. Will run over rocks and hangs gracefully from walls. Rooted divisions, \$7.50 per 100.

CYTISUS

A fast growing group of shrubs which brighten up landscape with their brilliant masses of yellow pea-shaped flowers; valuable as a contrast to solid green shrubbery; unusually hardy and drought resistant. All require full sun.

C. scoparius. "Scotch Broom." (S.) 6 ft. A very fast growing, erect, bushy shrub with minute leaves and large, yellow, pea-shaped flowers, borne in great profusion in the spring. Hardy. B.B., 4 to 5 ft., 75c; 5 to 4 ft., 50c; \$4.00 per 10; 2 to 3 ft., 40c; \$3.50 per 10. 8 to 12 inch, for hedges, \$5.00 per 100.

C. hybridus. "Lord Lambourne." 4 ft. 10". An exceedingly graceful bush, with brilliant red and buff flowers borne in great profusion. Bushy plants to bloom 1940, 50c to \$1.00.

C. hybridus. San Francisco. 5 ft. 10". Semi-spreading, and its rich velvety red flowers, almost uniform in color, are the deepest and reddest of all the Brooms. 6 to 8 inch, 35c.

G. monspessulanus. (S.) 4 ft. New. Hardy kind with clouds of small bright yellow flowers in spring. Foliage small. 2 to 3 ft., 50c.

DAPHNE

Daphne odora variegata. A real shrub aristocrat, with deep green glossy leaves margined with cream, bearing exquisite sweet pink flowers in late winter and spring. Best in part shade. B.B., bushy plants, 6 to 9 inch, \$1.00; 9 to 12 inch, \$1.35; 12 to 15 inch, \$1.75; 15 to 18 inch, \$2.50.

EUONYMUS. Evergreen Euonymus

Admirably useful and attractive when used in groups, edgings, hedges, corner plantings and in rockeries.

E. japonica, albo marginata. "Silvermargined." (S.) 5 ft. Leaves have a very narrow margin of silvery white. Growth slow and compact. Entirely distinct. B.B., bushy plants, 50c to \$1.00.

E. japonica fertilis. 8 ft. Glossy green leaves and showy orange colored berries. B.B., 12 to 15 inch, 75c.

E. Patens (Evergreen Wahoo). 5 ft. Hardy shrub. Green stems, very dark green leaves. Wealth of red fruits that break open like Bittersweet, showing a beautiful coral seed and pod, makes it very striking. It does well in shade and makes a good foundation plant. 12 to 15 inch, 85c.

E. Pulchellus, (E. Microphylla) (R.) Very dwarf. Tiny leaves. Makes good edging or single specimen. Quite hardy. Trimmed specimens, 75c to \$1.50. Gal. cans, 50c; 10 for \$4.00. Some with variegated silver leaves, potted, 50c to \$1.00.

FATSIA

F. japonica. 4-8 ft. (S.) A massive plant of tropical appearance with very large shining green, deeply lobed leaves, one foot across. Immense truss of white bloom in fall. Best in a shady place. Quite hardy. Growth slow. 4-inch pots, 35c.

LAUREL

Prunus laurocerasus latifolia. "English Laurel." "Cherry Laurel." (S.) 15 ft. Small tree or large bush. Very large, glossy, evergreen foliage, beautiful both summer and winter. For sun or shade, B.B., 2 to 3 ft., \$1.75; 3 to 4 ft., \$2.25.

P. lusitanica. "Portugal Laurel." (S.) 20 ft. Somber, very dark green leaves. Growth very compact when sheared. Flowers white. One of the handsomest evergreen shrubs for tub culture or in deep shade. B.B., 4 to 5 ft., \$5.00; 5 to 6 ft., \$6.00.

L. nobilis. "Grecian Bay or Laurel." 8 ft. The well-known Bay Tree so often trained as globes and pyramids for outdoor or indoor tub plants. Stiff, dark green leaves. A fine shrub for shade. From this plant Ancient Greeks crowned their heroes with Laurel. B.B., 18 to 24 inch, \$1.50; 12 to 15 inch, 75c.

A CHINESE PROVERB

If you want to be happy three hours, get drunk. If you want to be happy three days, kill a pig. If you want to be happy three weeks, get married. If you want to be happy always, be a gardener!

LONICERA. Honeysuckle

L. pileata. (R.) (S.) 3 ft. Compact shrub; with many very small leaves; graceful drooping habit. Likes the sun but does well in part shade. Prune often. A "best seller," doing well in any position. Half hardy, potted. 25c to 50c; B.B., 12 to 18 inch, 50c; 18 to 24 inch, 75c and 85c.

MAGNOLIA

M. grandiflora, lanceolata. 30 ft. (T.) This one is hardy and will stand snow. Large glossy leaves, magnificent white cupped flowers 6 inches across. Heavy field grown, B.B., 2 to 3 ft., \$2.00; 4 to 5 ft., \$3.50; 5 to 6 ft., \$4.50; 6 to 7 ft., \$6.00; 7 to 8 ft., \$7.50; 8 to 9 ft., \$10.00.

PHOTINIA

***Photinia, arbutifolia.** "Toyon." "Christmas Berry." "California Holly." Well known native shrub, brilliant red berries. Thrives admirably under cultivation. 24 to 30 in., B.B., \$1.75.

P. serrulata. "Low Photinia." (S.) 8-10 ft. Foliage large, glossy and new growth bronzy red; flowers white with orange berries following. B.B., 24 to 30 in., \$2.00.

RHAMNUS

***R. Crocea ilicifolia.** (S.) 6 ft. Small roundish holly like leaves of deep glossy green. In Fall is a mass of small bright red berries. Ideal for hillsides and canyons, as the foliage retains its bright glossy appearance through the driest summers. Balled, 2 to 3 ft., \$1.00; 3 to 4 ft., \$1.75; 4 to 5 ft., \$2.50.

(S) Means Shrub.

B. B. Means Earth-ball wrapped in burlap.

Where 10 ornamental trees or shrubs of one variety are ordered 10% reduction from list prices.

RHODODENDRONS

These popular shrubs must have an acid soil, partial shade and no spading around the plant. Mulch with peat or leaf mold. If your soil is not acid, see directions under Azalea. Page 8.

We offer the finest grafted stock and can supply all the best and most popular varieties in Red, Pink and Lavendar with numerous flower buds. Size of plants about 15 to 18 inches wide by 18 to 24 inches tall at \$4.00, \$4.50, \$4.75 and \$5.00; 12 to 15 inch, \$2.50 to \$3.50.

Hybrid Seedlings. Grown from select seed of red varieties, but may vary in color. B.B., bushy, 12 to 15 inch, with flower buds, \$1.50 each.

VIBURNUM

V. tinus. "Laurustinus." Well known, universally grown, hardy everywhere on this Coast. Splendid winter bloomer, clusters of pinkish white flowers, beginning in December or January, cover the plant all spring, for 5 or 6 months. Potted 25c to 75c.

V. Burkwoodi. NEW. A really wonderful new shrub, acclaimed everywhere. Nearly evergreen with large glossy green leaves which assume lovely autumn tints. Fast growing with deliciously fragrant white flowers which are pink in bud stage. Hardy to Northern Ohio. A limited quantity of 4 to 6 inch. Potted plants at 50c.

GILLET'S BERRY BEARING SHRUBS

COTONEASTER

Handsome shrubs, leaves of varying shades of green, some turning to bright fall colors; flowers minute, usually white or pinkish; berries of many hues and colors varying from orange to bright scarlet. Unexcelled for grouping, corner effects and for edging large plantings of shrubbery borders and for rock gardens. Usually have in stock larger and smaller sizes than listed, of all varieties.

PROSTRATE COTONEASTERS

For Rock Gardens, Etc.

Size is determined by spread and not by height.

C. gracilis. (R.) 3 ft. One of the choicest new creeping cotoneasters, very prostrate, rather slow growing, foliage glossy evergreen, smaller than Boxwood, berries are bright rose red in great profusion. Potted, 40c, 50c and 75c.

C. horizontalis. (R.) 3 ft. Deciduous. One of the best trailing shrubs. Branches grow almost on the ground. Leaves shiny, small and turn red before falling. Flowers pinkish white. Berries bright red in great profusion. Hardy. Potted, 25c, 35c, 50c.

C. microphylla. (R.) 3 ft. Spreading habit, but semi-erect. Dark green foliage, evergreen. Berries rose-red. Quite hardy. Does well in part shade. 8 to 12 inch, 35c; 12 to 18 inch, 50c.

C. microphylla thymifolia. 2 ft. (R.) Very small leaves. Very dwarf. Excellent rock plant. Berries small coral-red. 8 to 12 inch, 60c; 6 to 8 inch, 50c.

UPRIGHT COTONEASTERS

C. Franchetti. 6 ft. Fast growing, upright arching branches, leaves dark green on top; silvery beneath. Older leaves turn red in fall. Many orange-red berries scattered over the branches in the winter. Quite hardy, sheds most of leaves in cold climate. B.B., 18 to 24 inch, 50c; 24 to 30 inch, 75c; 30 to 36 inch, \$1.00.

C. pannosa. "Silverleaf Cotoneaster." 8 ft. Leaves soft gray green, under sides silvery color. White flowers. Masses of dull silvery red berries, which remain all fall and winter. Fast growing and of graceful loose habit. Gal. cans, 50c. B.B., 18 to 24 inch, 60c; 2 to 3 ft., \$1.00. Fairly hardy.

C. parneyi. 8 ft. (**C. lactea.**) The finest foliage and the showiest berries. Foliage much larger than Cotoneasters, with big clusters of immense brilliant red berries in the fall and winter. Full sun. B.B., 3 to 4 ft., \$2.25; 2 to 3 ft., \$1.50; 18 to 24 inch, \$1.00; 12 to 18 inch, 60c.

C. heberphylla. 7 ft. Deciduous. Here is a hardy fine foliaged berried shrub, with attractive dark red berries. Foliage turns red in Fall. B.B., 2 to 3 ft., \$1.00.

WHITE SNOWBERRY

An old-fashioned gem of the garden.
(Priced last column)

ARBUTUS

A. unedo. "Strawberry Tree." (S.) 10 ft. Large shrub, attractive glossy foliage. White flowers in winter months and with them the large red strawberry-like fruit of previous season. Showy and handsome. B.B., 18 to 24 inch, \$1.50; small plants 50c.

BERBERIS. Barberry

They add a great deal of charm to our gardens by their fall coloring and numerous berries of all shades and tints of blue and red, as well as their bright yellow or orange flowers in spring. Will grow under all conditions except dense shade and wet situations.

B. Thunbergi. "Japanese Barberry." With small green leaves that turn glorious orange, yellow and red in Fall. Berries bright red, pendant from branches, staying well into the winter. Easily pruned to globe shape. Fine for low hedges. Deciduous. 8 to 12 inch, 15c; 12 to 18 inch, 25c; 18 to 24 inch, 35c.

See Page 11 for hedge sizes.

B. Thunbergi, atropurpurea. (Red Leaf Barberry) 4 ft. When planted in full sun, a rich purple all summer, and in fall fiery red and orange coloring. Pendant purple berries. Deciduous. A beauty at all times, 15 to 18 inch, 50c; 18 to 24 inch, 85c.

A NEW BARBERRY

Berberis verruculosa. "Chinese Dwarf Barberry." 3 ft. Zero. Finest new low growing variety which makes a low mound of dark green foliage, grey beneath. Evergreen in all climates and in cooler climates the foliage turns a gorgeous red. Likes full sun. Golden flowers in spring. Gal. containers, 60c.

ELEAGNUS

E. pungens reflexa. "Silverberry." 6 ft. A fine spreading shrub for part shade with leaves and stems covered with frosty, shiny scales, silvery on upper surface and bronze beneath. Tiny flowers in November, very fragrant. Berries are grey with brown dots. 18 to 24 inch, \$1.25.

E. pungens maculata. "Golden variegated leaf." Rare and elegant variety of above species. Large frosty leaves, beautifully marked with golden yellow. Best in part shade. 15 to 18 inch, \$1.75; in small pots 50c.

EUONYMOUS

E. Alatus. "Winged Euonymous." S. 10 ft. Very interesting shrub with corky wings on branches, with profusion of orange-red fruit, followed by brilliant colored foliage in fall. Deciduous. Hardy. 12 to 15 inch, 25c; 18 to 24 inch, 60c; 2 to 3 ft., 85c.

Euonymous fertilis. See Page 8.

ILEX. Holly

Holly prefers a moist, partially shaded location; fairly heavy soil. All holly species are dioecious; that is, male and female flowers are borne on separate plants. It is necessary to have both to insure a crop of berries on female trees.

1. Aquifolium femina. "English Holly." 15 ft. Dark green elegant waved, prickly leaves, grafted from trees that berry heavily. One male plant is sent with each grafted female tree, which should be planted in same hole or near the grafted plant. Prices per pair, size given is that of female tree, (male plants will be smaller) 12 to 15 inch, \$1.25; 15 to 18 inch, \$1.50; 1½ to 2 ft., \$1.75.

Following are much heavier bushy female plants, with berries: 2 to 2½ ft., \$3.75; 2½ to 3 ft. \$4.50 and up.

Male plants at 25% less than quoted prices.

Silver Variegated Leaf. Form of English Holly. A beautiful shrub for part shade, with Silver edged prickly leaves. Small plants, 75c to \$1.00. **Golden variegated leaf.** Small grafted plants, 85c; gal. cans, \$1.25.

I. Cornuta. "Chinese Holly." 15 ft. Leaves similar to English Holly but rectangular. Red berries. Stands more heat than English. **Grafted female plants** with one male, 1 to 1½ ft., \$1.75; 1½ to 2 ft., \$2.50.

I. Crenata. "Japanese Holly." Shrub-like. Dark green small leaves. Can be sheared to neat specimens. Black berries. Sheared specimens, 12 to 15 inch, \$1.50; 15 to 18 inch, \$1.75; 18 to 24 inch, \$2.00.

I. Latifolia. NEW. 20 ft. Like all Holly is slow growing, but is very much worth while. Glossy green leaves of size and shape of English Laurel, but slightly toothed. Red berries in dense clusters. One of the most beautiful Hollies. Hardy to 5° above zero. Seedling plants 6 to 8 inch, 50c.

I. Opaca. "American Holly." 20 ft. Native of Eastern states. A desirable ornamental on many situations. Hardier than English Holly. **For plants that have berried,** size 3 to 4 ft., \$4.00 per pair; 2 to 3 ft., \$3.00, male and female.

I. Verticillata. "Winter-berry." A handsome deciduous form of Holly. At its best in moist soil. The sparkling masses of crimson fruits which appear in October represent its greatest charm and carry its value far into winter. 4 to 5 ft., female with male, \$2.50 per pair; 18 to 24 inch seedlings, 50c each.

MAHONIA. Holly Grape

***M. aquifolium.** "Oregon Grape." (S.) 6 ft. Dark green leaves, coppery purple during winter. New growth very glossy. Flowers bright yellow. Clusters of blue berries from which a fine jelly is made. Hardy. For sun or shade. B.B., 12 to 15 inch, 75c; 15 to 18 inch, 85c; 18 to 20 inch, \$1.00. Heavier grades, \$1.50 to \$2.00.

M. bealei. "Japonica." Medium sized shrub, unique foliage; large, spiny, light green, turning yellow with age. Flowers yellow; berries blue. Suitable for shady location. Quite hardy. 12 inch, 85c.

***M. ilicifolium compacta.** (S.) A new variety with foliage much like Oregon Grape though somewhat lighter in color; growth dwarf and compact, making it a fine little shrub for foundation planting. Balled, 6 to 8 inch, 40c.

NANDINA

Nandina domestica. "Heavenly Bamboo." 5 ft. (S.) Though not a true Bamboo it is made up of a number of canes densely clothed with compound leaflets, bronzy red when young, dark green at maturity, and with beautiful coppery red tones in winter. Thrives in sun or shade; covered with showy clusters of red berries in winter. B. B., 6 to 8 inch, 25c; 8 to 12 inch, 40c; 12 to 15 inch, 60c.

Berries of Pyracantha Lalandi

PYRACANTHA. Firethorn, Crataegus

They are exceedingly valuable for the great wealth of bright colored berries which they furnish in the fall and winter, and which remain on the plant for many months. They naturally grow quite tall, but if pruned back severely once a year will make a low dense bush. Sets its berries best in full sun.

Pyracantha atalantoides. Magnificent new variety, upright in growth, dark lustrous foliage, brilliant orange scarlet berries clustered profusely up and down the branches. A beautiful sight when in berry and in spring as well as when covered with a white halo of bloom. B.B., 12 to 18 inch, 75c; 18 to 24 inch, \$1.00; gal. cans, 60c.

P. crenulata yunnanensis. Variety Graberi. 12 ft. Splendid spreading growth semi-prostrate; but can be trained against wall or to frame low windows; foliage glossy; masses bright red berries, remain until early spring. Excellent for general ornamental planting; birds do not molest the fruit. Potted, 25c, 35c, 50c. B.B., 12 to 18 inch, 50c; 18 to 24 inch, 75c; gal. cans, 60c.

P. coccinea lalandi. (S.) 15 ft. Of strong growth, making long shoots that can be trained against a wall if desired. Profusion of white flowers. Berries orange yellow in immense clusters. Hardy. Potted, 25c, 35c 50c. B.B., 18 to 24 inch, 50c; 2 to 3 ft., 75c; 4 to 5 ft., \$1.25; 5 to 6 ft., \$1.50.

P. formosana. Splendens. 8 ft. Possibly the showiest of all this group of berried plants, recently introduced from Formosa. A solid mass of brilliant red berries in fall and winter which, being on short stems display much better than some of the advertised kinds which have heavy berries which tend to droop. B.B., 18 to 24 inch, 75c; 2 to 3 ft., \$1.00.

SYMPHORICARPOS. Snowberry

Valued for their ornamental fruit, which remains on the plants all winter. Of slender growth, with fine foliage. Does well in part shade. Fine for covering banks. Deciduous.

S. Vulgaris. "Red Snowberry." "Coral Berry." 3 ft. Habit compact. Loaded during fall and winter with dark red berries in dense clusters. 3 to 4 ft., 75c; 2 to 3 ft., 60c; 18 to 24 inch, 40c.

S. chenaulti. "Improved Coral Berry." 5 ft. A lovely hybrid recently originated in the Arnold Arboretum. The numerous berries, considerably larger than the Coral Berry, are pink. Extremely graceful in habit with nearly evergreen lustrous foliage. Small pink and white flowers in June. Does well in sun or shade. 12 to 18 inch, 40c; 18 to 24 inch, 50c.

***S. Racemosus** (White Snowberry). 3 ft. Dwarf shrub with small pink blooms. Showy large white berries that hang on the plants the greater part of the winter. 12 to 18 inch, 40c; 2 to 3 ft., 75c.

*Means native of California.

DECIDUOUS FLOWERING SHRUBS

ALMOND (Dwarf)

Prunus glandulosa. Pink flowering. 3 ft. The beauty of this shrub in the spring is not soon forgotten. Flowers are double and cover the branches. On own roots which make for more durable plants than when budded on plum, as commonly offered. B.B., 18 to 24 inch, 85c.

ALTHEA. Rose of Sharon

10 ft. The brightest and most free blooming shrub in the garden during July, August, September. Large showy flowers, which are developed by heavy pruning during winter.

Single Violet. Single White. Bushy plants, 18 to 24 inch, 75c; 2 to 3 ft., 85c.

BUDDLEIA

B. Ile de France. 10 ft. Large fragrant flowers of brilliant rosy purple, tinted with violet. A vastly improved Buddleia. Potted, 35c, 50c.

CALYCANTHUS. Sweet Shrub

Calycanthus Floridus. "Sweet Shrub." 8 ft. Foliage dark green, flowers dark red. Fragrant flowers and leaves, free blooming. Has artistic and interesting seed-pods. 12 to 18 inch, 40c; 18 to 24 inch, 60c.

CORYLUS. Filbert

Filbert, purple leaved. 10 ft. Large round leaves, intensely dark, bronzy purple in spring, becoming greenish toward fall. Very distinct even among other purple-leaved shrubs. For sun or shade. Bears fine nuts, 1 to 1½ ft., 60c 1½ to 2 ft., 85c; 2 to 3 ft., \$1.25; 3 to 4 ft., \$1.50 to \$2.50; Bushy, 4 to 5 ft., \$3.75.

Corylus Avellana. 10 ft. The common hazelnut (filbert). A very ornamental shrub with the nuts as an added value. Bushy plants 4 to 6 ft. in bearing, \$1.00. See Page 5 also.

CREPE MYRTLE

Crepe Myrtle. 15 ft. Should have a place in every garden. Leaves are bright green, turning a bright red in fall; flowers produced in utmost profusion at ends of branches during late Summer and Fall. Plant in full sun. Prune half the new growth each winter to shrub or small tree. **Pink, Lavender,** balled, 3 to 4 ft., \$1.00; 2 to 3 ft., 85c; 18 to 24 inch, 75c. **Dwarf Red,** 18 to 24 inch, 85c.

CYDONIA. Flowering Quince.

Cydonia japonica grandiflora rubra. "Red Flowering Quince." Very showy plant early in spring, covered with bright, semi-double, rosy red flowers, which appear just as the leaves begin to show. Attractive glossy foliage the rest of the summer. Cutting grown, not seedling. 12 to 18 inch, 50c; 18 to 24 inch, 75c. Also **Double Blood Red,** small plants, 75c. **C. japonica Corallina.** A lovely coral gem of this family. B.B., 2 to 3 ft., \$1.25.

DEUTZIA

Free blooming shrubs. Bell shaped flowers, spring and early summer. Should be more widely planted in California for their gorgeous color effects in the garden and shrubbery. Strong blooming size plants.

D. Pride of Rochester. 8 ft. In May this shrub will be the pride of your garden with double white bell-shaped flowers with reddish outer petals in utmost profusion, 4 to 5 ft., 85c; 3 to 4 ft., 60c.

D. Gracilis. 3 ft. (R.) One of our daintiest and most graceful flowering shrubs. Branches slender and arching, with profusion of small, beautifully formed flowers, 50c to 75c each.

FORSYTHIA. Golden Bell

Splendid shrubs, 6 to 8 ft., light up the garden with glinting masses of yellow very early in spring before the leaves appear. Make bright-hued fillers for massed shrub groups.

Intermedia (Arching). Short leaved, earliest blooming, broadest bushing; the long canes drooping so as to make a solid bank of brilliant green foliage. The best general purpose type. 3 to 4 ft., 75c; 4 to 6 ft., 85c.

Spectabilis (Showy Goldenbells). A form of intermedia similar in character, but with the largest flowers—often with five or six petals—crowded, and borne in the greatest profusion. 3 to 4 ft., 85c.

GOLDEN CHAIN

Laburnum vulgare. 20 ft. Beautiful small tree or shrub, quick growth. Leaves soft, gray green. Flowers fragrant, bright yellow in long drooping racemes, suggestive of yellow Wisterias. 6 to 8 ft., \$1.00.

HYDRANGEA

H. hortensis. 8 ft. Shade loving shrub furnished with large foliage and immense heads of light pink flowers, which turn blue when grown in soils containing iron or acid. Potted, 25c to 50c; Variety Otaksa, B.B., 12 to 18 inch, \$1.25.

H. Paniculata Grandiflora. 6 ft. Wonderfully attractive with their massive white plumes. First snowy white, then pink, then reddish bronze and green. August till autumn. Hardy 12 to 18 inch, 50c; 8 to 12 inch, 35c.

KERRIA

K. Japonica. "Japanese Rose." Bushy shrub, slender green branches. Single flowers, clear yellow. Potted, 35c, 50c. Best in part shade.

KOLKWITZIA

K. amabilis. "Beauty Bush." 6 to 7 ft. Long arching branches are covered in spring with inch long pink flowers of honeysuckle type, so that the bush is a cloud of delicate pink. Bushy plants, 3 to 4 ft., \$1.00.

LONICERA. Honeysuckle.

Honeysuckle Bush. 10 ft. Has bright pink flowers and showy red berries that last through the fall. Make desirable bulky screening, and the nucleus of tall shrub groups. 2 to 3 ft., 85c; 3 to 4 ft., \$1.00.

JAPANESE MAPLE

ACER palmatum. Japanese Maple. 12 to 15 ft. Handsome shrub or small tree, with beautiful green foliage splashed with bright golden and scarlet in the spring, changing to green in the summer and the autumn to brilliant colors. Best in part shade. 2 to 3 ft., 75c; 3 to 4 ft., 85c; 4 to 5 ft., \$1.25.

Acer Palmatum atropurpureum. 8 ft. (R.) (S.) "Bloodleaf Japanese Maple." One of the very finest of the Japanese Maples, its rich purple red foliage is a great attraction to every garden. 18 to 24 inch, \$2.00.

A. dissectum atropurpureum. (R.) (S.) "Dwarf Red Cut Leaf Japanese Maple." An elegant dwarfish tree with blood-red fern like leaves. Branches droop gracefully. Sizes show spread of branches. 12 to 18 inch, \$2.50.

PHILADELPHUS. Mock Orange

P. Single White. 6 ft. Profuse of bloom and as fragrant as orange blossoms. 18 to 24 inch, 40c.

PUNICA. Pomegranate

Mme. Legrelle. Double orange and white flowers. Rapid-growing shrub, scarlet flowers; does not produce fruit. Blooms from June to October. Bare root, 2 to 3 ft., 75c.

RHUS

Typhina laciniata (Cutleaf Sumac)—5 ft. Shiny foliage, delicately cut, fern-like. One of our most striking dwarf shrubs. Brilliant Autumn effect. 3 to 4 ft., 85c.

SPIREA-BRIDAL WREATH

Shrubs of free blooming habit varying in appearance, color of flowers and manner of blooming. All have very small flowers in compact clusters of different forms. Do well in any good garden soil. The varieties Reeves, Prunifolia and Van Houttei are all called Bridal Wreath.

S. thunbergi. Thunberg Spirea. 4 ft. Feathery, light green foliage; flowers white, very profuse in early May. An exceptionally good shrub to use in small groups or as a group about foundations. Potted, 25c and 35c; 2 to 3 ft., 50c; 3 to 4 ft., 85c.

S. bumalda. "Anthony Waterer" or "Walluffi." Dwarf, erect form, growing three feet high. Flowers bright crimson, in flattened heads at end of branches. Blooms all summer. Very desirable. Potted, 25c to 50c.

S. cantoniensis reevesiana. 6 ft. Medium-sized shrub with long narrow leaves. Flowers pure white, large, borne most profusely in dense heads. Practically evergreen. 4 to 5 ft., 85c. Same but with **Double Flowers** and evergreen foliage, 18 to 24 inch, 85c.

***S. Douglassi.** 6 ft. Deep pink. July to frost. Terminals of each branch crowned with flower spike six inches long. Rather coarse shrub, but useful for banks and as fillers in large plantings. 35c to 75c.

S. prunifolia flore pleno. "True Bridal Wreath." Small shrub with long, very slender branches. Flowers very double and pure white, borne along the branches before the leaves appear. This is the genuine "Bridal Wreath." 2 to 3 ft., 75c; 18 to 24 inch, 50c.

S. Arguta. "Snow Garland." 6 ft. Billowy masses of tiny white flowers in early Spring. 3 to 4 ft., heavily bushed, 90c. 2 to 3 ft. 50c.

S. van houttei. 4 ft. A handsome pendulous bush. Flowers pure white. Fine for grouping and shrubbery borders. Bare root, 18 to 24 inch, 40c; 2 to 3 ft., 50c. 3 to 4 ft., 75c.

SYRINGA. Lilac

Purple. The old favorite, always a delight, 18 to 24 inch, 50c; 2 to 3 ft., 75c each; 3 to 4 ft., 85c. A few Budded French varieties, 3 to 4 ft., \$1.25.

VITEX

V. Macrophylla. 10 ft. Grey-green star-shaped leaves. Rich blue flowers. August and September, from new terminal growth. Very fine shrub when pruned each spring. 2 to 3 ft., 85c; 4 to 5 ft., \$1.50.

See Page 8 for PREPAID RATES.

Hydrangea Paniculata Grandiflora

VIBURNUM. Snowball, Etc.

Both the common Snowball and the more refined Japanese should be in every garden for their showy blooms and rich colored foliage in fall. Hardy.

V. Sterilis. "Snowball." The common Snowball making large showy shrub. Large plants. 50c to 75c. Gal. cans, 40c.

V. Opulus. "European Cranberry." Broad, brilliant green foliage; a rich setting for large bunches of crimson berries which persist on bare branches into the winter. The flowers are in dense cymes about 4 inches across; pure white. 1½ to 2 ft., 35c.

WEIGELA. Diervilla

5 to 8 ft. Trumpet-shaped flowers in profusion that is almost unequalled. Their striking foliage contrasts finely with other shrubs; for borders they are very effective. Prune after flowering in the summer.

Eva Rathke. Deep red, low growth. 12 to 18 inch, 50c.

Rosea. One of the prettiest; deep pink, 3 to 4 ft., 85c; 2 to 3 ft., 75c.

Abel Carriere. Blooms May and June. Rose-carmine flowers with orange spots; very rich and showy. 3 to 4 ft., 85c.

PRIVET

The privet family is not alone useful as a hedge plant, but are desirable specimen shrubs. Their showy bloom is like the Common Lilac, followed by dark blue berries. Use them freely in shrub groups, as formal trimmed specimens and accent plants, beside entrances, etc.

EVERGREEN PRIVETS

L. coriacum. (Dwarf Privet) 6 ft. Slow-growing type with thick, waxy foliage; creamy-white flowers and numerous blue berries. Has more character than other privets. Best in shade except near the Coast. B.B., 24 to 30 inch, \$1.75; 18 to 24 inch, sheared, \$1.50, 12 to 18 inch, \$1.25.

L. Lodense. Trimmed specimens in Globes, and Broad Cones. Make splendid accent plants for formal work. Diameter 18 inch, \$1.75; 24 inch, \$2.25; 30 inch, \$3.50. This plant makes unexcelled low (1 to 2 ft.) compact hedge. See below for prices.

L. Lucidum. "Waxleaf Privet." 15 ft. Entirely evergreen, large deep green glossy leaves and fine appearance. Creamy white flowers, followed by large clusters, blue berries. Bushy plants, trimmed, B.B., 12 to 18 inch, 25c; 18 to 24 inch, 35c; 2 to 3 ft., \$1.00; 3 to 4 ft., \$1.50. Standards, round heads on straight stems, 3 ft., \$2.00; 4 ft., \$2.50.

L. ovalifolium aurea marginatum. "Golden Privet." Bushy field grown. B.B., 8 to 12 inch, 35c; 12 to 15 inch, 50c; 15 to 18 inch, 60c; 18 to 24 inch, 75c; 24 to 30 inch, \$1.00; gal. cans, 60c.

We do not stock the much advertised patented roses, but will furnish same at their listed prices.

BUSH ROSES

REDS

Ami Quinard. HT. Buds are very dark, opening to a fragrant flower of velvety maroon with soft black luster. Strong grower and free blooming.

Cynthia. HT. A striking Rose with long-pointed buds open to beautiful flowers of rich oriental red. A prolific bloomer and fine for cut-flowers.

E. G. Hill. Immense flowers of lasting, dazzling scarlet, never fading or turning blue, but actually becoming deeper red as it opens. Borne on long stems, and are deliciously fragrant. There are few red roses which will rival E. G. Hill, for it is truly a magnificent rose.

Etoile de Hollande. This magnificent red rose is ranked among the first three of its color by everyone who knows roses, and many will place it first. Perfect buds are medium size, opening beautifully and cleanly into glorious flowers with incomparable fragrance. Bush is strong, free branching, healthy. Actually has no serious fault. You can pay fancy prices for Patented Red Roses and get no finer results.

Margaret McGredy. A brilliantly colored masterpiece of orange-scarlet or brick-red. Short, stout buds, opening to large, full, magnificent flowers, on a beautiful heavily foliated, well branched bush.

Red Radiance. Similar in growth to Pink Radiance, but has big, bold cerise-red flowers which are borne on long heavy stems. Most sweetly damask scented. Hardy.

Sensation. All summer it produces its large, fragrant flowers of deep red on strong stems. A dependable rose.

Victoria Harrington. A magnificent bud and flower of a uniform shade of velvety dark red, with a peculiar brick-red undertone. The color does not fade in the hottest sun and remains the same until the petals drop. The petals are beautifully reflexed, stems long and stiff, foliage splendid on tall willowy plant, fragrance is pleasant. 50c each.

BUSH ROSES

PINK SHADES

Dame Edith Helen. H. T. Free flowering strawberries and cream pink. Perfectly formed flower. Fine to cut.

Kathrine Kordes. This splendid Rose has a lovely form, large size, and delicate fruity fragrance, deep pink blooms, edged with silver, long stems and ideal buds make it a perfect cutting rose.

Isobel. Largest of the single Roses. Long buds are orange-carmine fading to a clear coral-pink in the sun when open. Growth tall, the flowers with very long stems. No Rose garden is complete without this beautiful single Rose.

J. Otto Thilow. Buds of this variety have about the most perfect form of any rose grown and open into a full lasting flower. Rose-pink, similar to Rose Marie, but flowers larger and on stiffer stems.

Picture. Rated one of the very finest pink Roses. Plant is vigorous and produces one continuous burst of bloom through the season, every bud is perfectly formed. The pink color has warm undertones of salmon. The flowers a sweet Tea fragrance. 50c each.

Rapture. H.T. Improved sport of Mme. Butterfly, with beautiful mildew-proof foliage. Pointed bud; deep salmon with bright golden suffusion. Free grower.

WHITE

McGredy's Ivory. HT. Creamy ivory-white, turning to clear white as they open; occasionally has a faint pink flush in the center in cool weather. The buds are as perfect as Roses can be; flowers possess a delicate Damask perfume.

BUSH ROSES

YELLOW AND ORANGE

Golden Emblem. The lovely long buds of golden yellow are beautifully tinted with crimson on the outer petals. Opens to a full golden yellow flower. The glossy green foliage is particularly fine, does not mildew, and the buds are borne on long stiff stems.

Golden Rapture. Produces perfectly formed bright yellow buds, a glowing shining rich yellow without any shadings, does not fade. Has pleasant fragrance. Growth is medium. 50c each.

Mrs. Erskine P. Thom. This is the most valuable yellow rose for the garden. The nicely shaped buds and well shaped open flowers are bright canary-yellow without other shadings, the strong growing, vigorous bush is lavish with the blooms. We know of no other yellow rose that we would prefer to recommend ahead of it.

Mrs. Pierre S. Dupont. H.T. Most profusely blooming yellow rose grown. Buds small but exquisitely formed, of a dark orange-yellow that holds well. Bushes compact; dark green, glossy, mildew-resistant foliage.

BUSH ROSES

Multi-Colors

Autumn. Full handsome buds are a superb burnt-orange, the opening flowers heavily suffused with russet-brown and bronzy red all over-laid on a background of rich yellow in a color combination of glorious autumnal foliage. Deliciously fragrant.

Condesa de Sastago. Its startling color combination is undoubtedly unique. The large, cup-shaped flowers, fairly double and yet not too heavy, are distinctly bi-colored, glowing orange-scarlet on the inside of the petals and an intensely bright yellow on the outside. The tall slender plants are robust, and the flowers possess a sweet fragrance.

Hinrich Gaede. Without doubt one of the best roses introduced in recent years. Rosy copper with brilliant orange tones which hold until the last petal drops. Buds extra large, of good form, borne singly on long strong stems. Blooms freely and the dark glistening foliage is very resistant to mildew. You cannot pass this rose without exclaiming over its unusual beauty.

Talisman. A vividly colored rose justifies all of the fine things that have been said about it. The brilliant coloring is a mixture of orange-scarlet and golden yellow in irregular proportions. Very double, exquisitely shaped, borne on long stems, exceedingly sweet scented.

POLYANTHA ROSES

EVER-BLOOMING BABY ROSES

Cameo. New shell pink and salmon, with a glow of gold; continuous bloom.

Cecile Brunner. The miniature flowers of this old favorite, rose pink shaded salmon, fill a niche no other Rose can occupy. A strong grower too, and always in bloom.

Golden Salmon. An everblooming spot of color. Like Gloria Mundi but does not hold color so well in full sun.

Gloria Mundi. The little double flowers, like baby pompon chrysanthemums, have the brightest and most striking color in the Baby Roses—brilliant, luminous, orange-scarlet—borne in great clusters which almost cover the plant. No. 1 grade, 50c.

We have Trees and Shrubs suited to the higher elevations, as around Lake Tahoe. Let us help you in making your selection.

CLIMBING ROSES

A climbing rose will produce as many flowers as a dozen bush roses. Most varieties will not flower the first year, but practically all sorts will yield a wealth of bloom the second year. They may be trained against walls or fences and many of the vigorous growers will climb quickly into the branches of tall trees.

PINK

Climbing Cecil Brunner. This famous climbing Rose, with its quantities of perfect miniature pink buds and flowers, is a favorite in California. Exceedingly vigorous, with dense handsome foliage. You can cut a bouquet of beautiful buds from it almost any time in the year.

Clg. Belle of Portugal. Extremely large flowers, of delicate soft pink, tinged with salmon. The well-shaped buds are often 3 inches long. Because of its strong growth it blooms very little for a year or two, but thereafter is very floriferous.

Clg. Mme. Edouard Herriot. (Daily Mail) Brilliant coral-red buds opening to flowers of flaming pink and orange. Flowers are slightly larger and more brilliant than those of the bush type and equally floriferous.

Clg. Louise Breslau. HT. Buds coral-red, shaded chrome-yellow; the very large expanded flowers are shrimp-pink, shaded coppery orange and chrome.

RED

Clg. American Beauty (H.P.)—Deep pink shaded toward the center with carmine-crimson. Large, fragrant. Hardy.

Climbing Etoile de Hollande. In our opinion, the finest red flowered everblooming climber. A strong grower, it produces some of the finest big red buds and open flowers that we have ever seen on any Rose, and the blooms are larger and on longer stems than the bush Etoile de Hollande and possess the same delicious fragrance.

Paul's Scarlet Climber. (Improved.) An intense vivid scarlet, semi-double, very freely produced in clusters of 3 to 20 blooms on long much branched canes, the plant being a mass of color from top to bottom. The flowers do not fade and there is nothing to compare with it for striking effect. No. 1 grade, 50c; No. 1½ grade, 35c.

YELLOW—GOLDEN

Climbing Golden Emblem. HT. It produces great quantities of the same highly colored buds of golden yellow with brilliant red shadings, which are so much admired on its bush form. Extremely vigorous, rampant grower, with enormous heavy canes 6 to 10 feet long.

Clg. Marechal Neil. Long a favorite climber, this superb old lemon yellow variety with its large globular, highly perfumed blooms, still remains deservedly popular. Best in shade, 50c each.

Climbing Mrs. Erskine P. Thom. Few will dispute the claim of Mrs. E. P. Thom to be one of the finest yellow bush Roses, and many will place it first. We have it now in a vigorous climber, multiplying many times the number of flawless yellow buds which can be produced on a bush type.

Clg. President Herbert Hoover. Beautifully formed, large blossoms and very fragrant. A charming combination of cerise-pink, flame, scarlet, and yellow, with broad, thick petals, retained for days after the flowers have fully opened. The foliage is clean and handsome.

Climbing Talisman. It is difficult to imagine anything more striking than a fence or trellis covered with the lovely red and gold flowers of the much admired Talisman.

Clg. Yellow Cecile Brunner. Cl.Poly. Similar to the popular Baby Rose but a beautiful shade of golden yellow. 50c each.

GILLET'S SHADE TREES

ASH

Sorbus aucuparia. "European Mountain Ash." 30 ft. Striking tree of erect growth. Flowers white, followed by large orange red berries. Scarlet leaves in autumn. Very handsome at any season. Bare root. Well branched. 8 to 10 ft., \$1.75; 6 to 8 ft., \$1.25; 5 to 6 ft., \$1.00; 3 to 4 ft., 75c. Protect this tree from borers.

Sorbus americana. "American Mountain Ash." 20 to 30 ft. Similar to European species except berries are brighter red and somewhat smaller. 2 to 3 ft., 50c.

Fraxinus velutina. "Arizona Ash." 30 ft. One of the finest trees for planting in arid desert sections although it makes a splendid tree near the coast or other sections of the state. It requires little water and thrives in alkaline soil, growing with great rapidity. 4 to 5 ft., 50c; 5 to 6 ft., 75c; 6 to 7 ft., \$1.00; 7 to 8 ft., \$1.25.

BIRCH

Betula Papyrifera "Canoe Birch." 30 ft. Has the whitest bark of all birches with loose graceful head when older. Bark curls and peels giving an artistic touch. Bare roots, 8 to 10 ft., \$1.75; 7 to 8 ft., \$1.50; 6 to 7 ft., \$1.25; 5 to 6 ft., \$1.00; 2 to 3 ft., 50c.

Betula Albalaciniata "Cutleaf Weeping Birch." 30 ft. With same white bark as European but leaves are deeply cut and branches weep gracefully. An elegant tree on the lawn. Bare roots, 4 to 5 ft., \$1.25; 6 to 7 ft., \$1.75.

Betula alba variety Pyramidal. This tree is budded from a symmetrical pyramidal type, with branches ascending to form a striking tree in the landscape. Bare roots, 4 to 6 ft., \$1.25.

CATALPA

Catalpa Speciosa. "Western Catalpa." 30 ft. Hardy tree desirable where winters are cold, stands hard conditions. Very large leaves. Beautiful large white flowers with dark markings. Bare root, 5 to 6 ft., 85c; 4 to 5 ft., 75c; 3 to 4 ft., 50c.

CHESTNUT

Where they do well, no finer shade tree can be planted. We offer selected, well branched trees that should bear nuts soon. Bare root, 8 to 10 ft., \$2.50; 6 to 8 ft., \$2.00; 5 to 6 ft., \$1.75. For smaller sizes see Page 4.

HORSE CHESTNUT

Aesculus hippocastanum. "Horse Chestnut." 40 ft. Tree of medium growth with round, symmetrical top; has magnificent spikes of white, sweet-scented flowers. Bare roots, 12 to 18 inch, 35c; 2 to 3 ft., \$1.00; 3 to 4 ft., \$1.50; 4 to 5 ft., \$1.75; 6 to 8 ft., \$2.50.

ELM

Ulmus Pumila "Chinese or Siberian." Exceedingly rapid growing tree. In dry interior sections, it adapts itself to extremes of heat, cold, drought and alkali. It is the one tree which can be planted almost anywhere and which will be almost certain to succeed. 10 to 12 ft., \$2.00; 8 to 10 ft., \$1.50; 6 to 8 ft., \$1.25; 5 to 6 ft., 85c; 4 to 5 ft., 65c; 3 to 4 ft., 50c.

Ulmus Parvifolia. "Evergreen Elm." 25 ft. One of the most beautiful elms in cultivation. A small tree with a spreading crown of slender drooping branches and delicate, bright green leaves, which change to bronze and purple in Fall. Grows rapidly. Evergreen except in cold sections. We recommend this highly for medium size shade tree. Elm beetle does not feed on this species. Bare roots, 8 to 10 ft., \$1.75; 6 to 8 ft., \$1.50; 5 to 6 ft., \$1.25; 4 to 5 ft., 75c; 3 to 4 ft., 60c.

HACKBERRY

Celtis sinensis. "Hackberry." 30 ft. A hardy shade tree for the hot, dry country, with spreading head of light green foliage. Not affected by any insects or fungi; grows in any soil and under all conditions, no matter how difficult. Fruit is pea size, dull red, pendant. 7 to 8 ft., \$1.50; 8 to 10 ft., \$1.75.

LINDEN

Tilia tomentosa. "Silver Linden." A shapely, upright tree, densely foliated with large heart-shaped leaves, dark green above, pale green and silver beneath. Stands heat better than other lindens. Flowers yellow and fragrant. Bare root. Specimen trees, branched, 8 to 10 ft., \$4.00; 7 to 8 ft., \$3.50; 6 to 7 ft., \$3.00; 5 to 6 ft., \$2.00; 2 yr. trees, 8 to 9 ft., \$1.75; 7 to 8 ft., \$1.50; 6 to 7 ft., \$1.25; 4 to 5 ft., \$1.00; 3 to 4 ft., 75c; 2 to 3 ft., 50c.

A few trees of real silver color on under side of leaf. 2 1/2 ft., 75c; 3 to 4 ft., \$1.00.

LOCUST

R. pseudacacia. "Black Locust." A fast grower with spreading top. Foliage light green, flowers white and very fragrant. Very drought resistant. Bare root, 6 to 8 ft., \$1.00; 5 to 6 ft., 85c.

MULBERRY

Morus Alba. "Russian Mulberry." 30 ft. A round headed tree of quick growth, profuse foliage, well branched. Plant in chicken yards for shade and berries, 8 to 10 ft., \$2.00; 6 to 8 ft., \$1.75; 5 to 6 ft., \$1.00; 4 to 5 ft., 75c; 3 to 4 ft., 50c.

MAPLE (Acer)

A. circinatum. "Vine Maple." Handsome round headed small tree or shrub, beautiful with its delicate light green foliage, red flowers, rose-colored fruits and scarlet fall foliage. Bare roots, 3 to 4 ft., \$1.25; 4 to 5 ft., \$1.50; 5 to 6 ft., \$1.75.

A. ginnala. "Amur Maple." 20 ft. shrub-like tree with small leaves which turn to gorgeous fall colors. Hardy Bare roots, 18-24 inch, 35c; 2 to 3 ft., 50c.

A. negundo argenteo variegatum. "White Leaf Box Elder." A very showy tree with its nearly white leaves and does not make very large tree. Bare roots, 5 to 6 ft., \$1.50.

A. platanoides. "Norway Maple." 40 ft. Large round form tree, with dark heavy foliage. Fine for most any situation, 5 year transplanted 3 times, well branched, 8 to 9 ft., \$3.00; 6 to 8 ft., \$2.25 to \$2.75; 5 to 6 ft., \$2.00; lightly branched, 2 yrs., 6 to 7 ft., \$1.00; 5 to 6 ft., 85c; 4 to 5 ft., 60c; 3 to 4 ft., 50c; 2 to 3 ft., 40c.

A. platanoides schwedleri. "Purple-leaf Maple." The most beautiful of the large maples. Buds are brilliant orange; young foliage coppery and mature leaves deeply stained with purple. Bare root, 7 to 8 ft., branched, \$1.75; 3 to 4 ft. whips, 75c.

Japanese Blood Leaf. (R). See page 11.) Beautiful specimen plant for sun or part shade.

A. Saccharinum. "Silver Maple." Most rapid growing of all maples with large leaves silvery beneath. 8 to 10 ft., \$1.50; 7 to 8 ft., \$1.25; 6 to 7 ft., \$1.00; 5 to 6 ft., 75c; 4 to 5 ft., 50c.

A. Saccharum. "Sugar Maple." 60 ft. At first this tree is slow but eventually grows fairly rapid to large handsome specimens. Foliage turns red in fall, whip trees, 1 1/2 to 2 ft., 35c; 2 to 3 ft., 50c; 3 to 4 ft., 50c; 4 to 5 ft., 75c; 5 to 6 ft., 85c.

THE OAKS

For long life, stateliness, wide spreading shade and beautiful fall coloring no tree excels the oak.

***Quercus chrysolepis.** "Golden Cup Oak." 40 ft. The finest evergreen oak for specimen planting. Leaves when young holly-like. Forms round head. Acorns borne in yellow moss-like cups. Balled, 4 to 5 ft., \$2.00; 2 to 3 ft., 85c.

***Quercus Kelloggii** "California Black Oak." A large growing magnificent specimen tree, 2 to 3 ft., 50c.

Quercus coccinea "Scarlet Oak." This splendid oak turns to red fall colors. 2 to 3 ft., 75c.

Quercus palustris. (Pin Oak). 75 ft. Fastest growing of all the Oaks and easily transplanted; makes a dense, broad pyramidal head, branching horizontally; leaves of the most pleasing shade of green, deeply cut, turning red in Fall; free from troubles and one of the best shade trees for damp or heavy soils. Protect from sun-scald and borers first few years. 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.25; 5 to 6 ft., \$1.50; 6 to 8 ft., \$2.00; 8 to 10 ft., \$3.00. All are well branched and have been three times transplanted.

POPLAR

Simon. "Flagpole Poplar." Very erect columnar growth; fine foliage. Better than Lombardy Poplar in every way. Five year heavy, 12 to 14 ft., \$2.50; 10 to 12 ft., \$2.25; 8 to 10 ft., \$1.75; 6 to 8 ft., \$1.25; 5 to 6 ft., \$1.00.

Carolina. Fast growing spreading type. 8 to 9 ft., 90c; 10 to 12 ft., \$1.50.

Chinese. Splendid quick growing shade tree with large dark green leaves. Good everywhere. This tree "can take it." Heavily branched, 12 to 14 ft., \$3.50; branched, 8 to 10 ft., \$1.25; 7 to 8 ft., \$1.00; 6 to 7 ft., 85c. Whips, 4 to 5 ft., 40c; 5 to 6 ft., 50c; 6 to 8 ft., 75c.

Lombardy. Well known vertically branched stately tree of Italian Landscapes, 10 to 12 ft., \$1.50.

PLANE. Sycamore

Plane Oriental. "European Sycamore." 60 ft. Valuable park and avenue tree; grows rapidly into a uniform tree. Foliage bright green, leaves deeply cut. Where quick and heavy shade is wanted, plant this one. Heavily rooted transplants, 10 to 12 ft., \$2.25; 8 to 10 ft., \$1.75; 7 to 8 ft., \$1.50; 6 to 7 ft., \$1.25. 1-yr. Whips, 5 to 6 ft., 75c.

Occidentalis. "American Plane." 80 ft. Very similar to Oriental Plane but less regular in habit of growth and with more deeply lobed leaves turning rich browns in fall, branched, 3 year, 8 to 9 ft., \$1.50; 9 to 10 ft., \$1.75; 6 to 8 ft., \$1.25; 5 to 6 ft., \$1.00.

Platanus racemosus. "California Sycamore." To some this is the handsomest plane tree. Similar in character to others listed. 6 to 8 ft., \$1.50.

SWEET GUM

Liquidambar. 120 ft. Forms large tree, but of slow growth. Leaves star shaped, similar to Maple. The autumn coloring is most gorgeous, surpassing that of any other tree. Bare root, 1 1/2 to 2 ft., 50c; 2 to 3 ft., 75c; 3 to 4 ft., \$1.00.

THE PATH BY THE WHITE BIRCH

TULIP TREE

Liriodendron. 100 ft. Leaves large, rich green. Flowers handsome, cup-shaped, resembling a Tulip; greenish yellow, marked with orange inside. A magnificent tree, B. & B., 3 to 4 ft., \$1.25; bare roots, 5 to 6 ft., \$1.50.

WILLOW

Wisconsin Weeping Willow. 50 ft. A strong, tall-growing willow with pendulous branches. Particularly adapted for waterside planting. A hardy, healthy variety. 10 to 12 ft., \$1.50; 8 to 10 ft., \$1.25; 7 to 8 ft., \$1.00; 6 to 7 ft., 85c; 5 to 6 ft., 50c; 3 to 4 ft., 40c.

Golden Weeping Willow. It's golden bark adds to general attractiveness, 2 yr., transplants, 6 to 8 ft., \$1.00; 5 to 6 ft., 85c.

Salix annularis. "Ringleaf Weeping Willow." 30 ft. In growth very similar to the ordinary Weeping Willow, but each leaf is curled and twisted into a ring. An oddly beautiful tree which is very attractive beside a pool; 5 to 6 ft., 85c; 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.25.

S. vitellina. "Golden Willow." 40 ft. Tree strong, upright grower; bark yellow, making a striking contrast with other trees. Hardy and rapid growing. 8 to 9 ft., \$1.00.

ODD SPECIES AND LARGE SIZES OF SHADE TREES

In addition to the foregoing we have a few trees of each of the following in various sizes. Ask for prices.

Beech. Sophora or Pagoda Tree. Chinese Lantern. Chinese Poplar. Chinese Elm. Chestnut. Oriental Plane.

HAWTHORNS

Handsome deciduous flowering tree. Of small size and fine habit. The double flowering varieties are a glorious sight in May. If the flowers were inconspicuous, the bright red berries in profusion would warrant planting this tree. Do well in rather dry place.

Crataegus carrieri. "Carrier's Thorn." Small, pyramidal tree with single white flowers of great beauty with large, waxy berries of brilliant scarlet, the size of cherries which stay well into the winter. Always attracts attention. Bare root, 8 to 9 ft., \$2.00.

Paul's Double Scarlet. 15 ft. Flowers deep crimson-scarlet; very double, followed by bright red berries. Two-year balled, branched some with flower buds, 4 to 5 ft., \$1.25; 5 to 6 ft., \$1.50. Can supply low branched in some sizes.

Crataegus oxyacantha. "Single White Thorn." A cloud of fragrant white bloom in spring; myriads of bright red berries in fall. Bare roots, 2 to 3 ft., 25c; 3 to 4 ft., 40c; 4 to 5 ft., 50c; 5 to 6 ft., 60c.

DECIDUOUS VINES

Aristolochia sipho (Dutchmans-pipe). The true, large-leaved variety. Splendid, clean vine for shading the veranda; leaves very large, eight or ten inches in diameter, foliage dense; flowers pipe-shape, of a brownish color. Potted, 35c to 50c.

Bittersweet. "Oriental Bittersweet." 20 ft. High climbing. Rapid grower. The bright orange seed pods, disclosing their scarlet seeds, are most interesting; they will retain their color on cut and dried branches. Hardy. 3 year plants, 75c. Older plants that have berried, 85c.

Polygonum auberti. "Silver Lace Vine." Twining habit averaging 25 feet in a season. The small foliage is fresh and shiny, with an extravagance of large, white, foamy flower sprays, from late summer into the fall. Hardy. Potted, 50c to 75c each.

Trumpet Vine. 30 ft. A robust hardy vine twining tightly with roots along stems. Orange-scarlet flowers cluster at tip of branches. Climbs to great heights on trunks of trees. For every purpose one of the best hardy vines. Strong 3 year, 35c, 50c, 75c.

CLEMATIS

C. jackmanni. 10 ft. Large, rich, velvety purple flowers in great profusion through summer and early fall. Gal. cans, \$1.00.

C. Mme. Edouard Andre. 8 ft. Large, bright red flowers. Profuse bloomer, moderate grower. Gallon cans, \$1.00.

C. Baron Veillard. 12 ft. Large lilac-rose flowers, Gallon cans, \$1.00.

C. Ramona. Lovely light blue. Gal. cans, \$1.00.

JASMINE

J. Stephanense. New. A hardy hybrid, pink flowered, sweet scented sort. 35c to 75c each.

J. primulinum. "Primrose Jasmine." Early blooming, yellow-flowered Jasmine with pendulous green branches which may be trained along a fence, over a pergola, or as a big shrub. Flowers almost two inches across, slightly fragrant. Zero. Potted, 60c-75c.

SHOWY FLOWERING TREES

ALBIZZIA. Persian Silk Tree

A. Julibrissin. "Pink Acacia." 30 ft. Handsome shade and avenue tree highly adapted to California conditions. Fine feathery foliage, pink fragrant flowers in great profusion from July to October. Stands winter as far north as Portland, Oregon. Bare roots, 2 to 3 ft., 50c; 3 to 4 ft., 75c.

DOGWOODS

Cornus Mas. "Cornelian Cherry." 15 ft. A handsome, large, dense growing shrub or tree, with foliage of graceful shape and pleasing dark green color. Bright yellow flowers borne in great profusion in early spring give way to red cherries size of olives. 3 to 4 ft., 85c; 4 to 5 ft., \$1.00; 5 to 6 ft., \$1.25.

Cornus Florida Rubra. "Pink Flowering Dogwood." Deep pink flowers, 2 to 3 inches wide, cover the tree before foliage appears in spring. The most beautiful of the Dogwoods. Bare roots, 1½ to 2 ft., \$1.50; 2 to 2½ ft., \$2.00.

Cornus sanguinea. "Bloodtwig Dogwood." Large shrub; foliage hairy on both sides; flowers small; white; berries black. Conspicuous in winter when branches are blood-red. B. & B. Bushy, 85c, \$1.00.

***Cornus Nuttali.** "Pacific Coast Dogwood." Splendid tree or shrub for shady places, with profusion of very large white flowers. The red seeds add to its fall beauty when foliage develops its rich red hues. Potted, 50c, 75c.

REDBUD OR JUDAS TREE

Cercis canadensis. "American Redbud." Small tree, every twig of which is covered with little pink, pea-shaped blossoms in early spring. 2 to 3 ft., 60c; 3 to 4 ft., 75c; 4 to 5 ft., 85c.

Cercis Siliquastrum. Large shrub or small tree with purplish rose flowers. 12 to 18 inch, 50c.

FLOWERING PEACH

First Class Heavy Grade Trees

Double Red. Late flowering. 5 to 6 ft., \$1.00; 6 to 8 ft., \$1.25.

Double White. Large flowers, exquisitely lovely. 6 to 8 ft., \$1.25.

Double Pink. Late flowering. 5 to 6 ft., \$1.00.

VINES AND TRAILERS

IVIES

Boston Ivy. 50 ft. Unexcelled climber. Foliage dense and glossy. Furnished with small discs, which adhere to brick, stone or wood, foliage turns red in fall. Potted, 25c, 35c, 50c and 75c each.

Virginia Creeper. 30 ft. Foliage large, turning scarlet in autumn. Flowers borne on red stalks. Strong plants, 25c, 35c, 50c each.

Ampelopsis henryana. Handsome big five-fingered leaves, olive green marked with silver, most beautiful in partial shade. Brilliant hues in fall, leafless in winter. Fairly hardy. 4-inch pots, 50c.

LONICERA. Honeysuckle

L. aureoreticulata. "Yellownet Japanese Honeysuckle." Foliage handsomely netted with bright yellow. Potted, 35c, 50c, 75c.

L. haliana. "Halls Japanese." 15 ft. Evergreen foliage. Flowers white, changing to yellow. Blooms July to late fall. Excellent vine for porch, arbor or ground cover. Hardy. Strong plants, 25c to 75c. To cover banks, use rooted runners, at \$5.00 per 100.

Lonicera heckrottii. 3 ft. A new hybrid bush or low climbing Honeysuckle. It starts to produce quantities of its delightfully fragrant flowers in May and in September is still going strong. Flowers are large, orange-yellow, flushed with purplish-crimson. Perfectly hardy. Prefers the sun. For covering a stump, low wall or as a bush, we recommend it as most colorful and fragrant. Balled, 50c; gal. cans, 60c.

L. sempervirens. Magnifica "Red Coral Honeysuckle." A new type with twining grayish green shoots; oval leaves and large showy orange-scarlet flowers; coral berries, 35c to 50c.

WISTERIA

40 ft. Handsome for use on pergolas, porches and trellises. Attractive foliage, magnificent drooping clusters of pea-shaped flowers. Our grafted plants are taken from flowering plants and are far superior to cheap seedlings.

Wisteria chinensis. "Chinese Wisteria." Flowers light purple-lavender, borne in racemes nearly a foot long, very fragrant. Not grafted. From 1 to 5 year plants, 35c to \$3.50.

W. multijuga. "Japanese Wisteria." (Var. Mrs. Goynes.) Long racemes of light lavender flowers borne about two weeks later than Chinese Wisteria, to escape frost damage to blossom buds. Grafted. Heavy rooted plants, \$2.00 to \$3.50.

W. violacea flore plena. Exceedingly beautiful double variety with fragrant violet flowers in long racemes. Grafted. Potted 2 year, 75c, \$1.00.

W. multijuga. "Japanese Wisteria." (Pink). Has long racemes of lovely pink shade. 3 year, \$1.75.

FLOWERING CRAB APPLES

Malus atrosanguinea. "Carmine Crab." Small tree with slender, semi-drooping branches. Single flowers of bright carmine opening from brilliant red buds. Bare root, 1 year branched, 4 to 5 ft., 90c.

Malus purpurea Eleyi. Brilliant purplish red foliage in large, vinous-red flowers in great profusion; the dark red fruits spectacular. 2 yr. branches, 4 to 5 ft., \$1.00.

P. ionensis plena. "Bechtel's Crab." Double pink flowers like small clustered roses; fragrant; late blooming. Bare root, 3 to 3½ ft., branched, \$1.00.

FLOWERING CHERRIES

Kwansan. 20 ft. Of upright growth, medium size tree. Flowers double pink, rated as the finest double pink. Bare root, 2 yr., 5 to 6 ft., branched, \$1.50.

Weeping. Double Pink. Grafted 6 ft. stems, 2 yr. heads, \$2.00, plus 25c for packing if to be shipped.

Weeping. Single Pink. Much smaller ultimate size than foregoing as its branches weep straight down. Clothed with lovely shell-pink flowers. 2 yr. 6 ft. stems, \$2.75, plus 25c packing if to be shipped.

PURPLE-LEAVED FLOWERING PLUM

Prunus blirieana. Semi-double flowers of soft pink borne on long slender branches. Foliage plum-like and heavily tinged with bronze. Bare root, branched, 5 to 6 ft., \$1.25.

P. pissardi. "Purple Leaf Plum." Leaves deep purple in spring, holding purple longer than any other purple leaf tree. Flowers numerous, white-tinted pink. Fruit reddish-purple; can be used for jams. Bare roots. Branched. 3 to 4 ft., 60c; 4 to 6 ft., 75c.

P. triloba. A beautiful dwarf tree covered with double ruffled flowers of appleblossom-pink. Bare roots, branched. 1½ to 2 ft., 60c.

Prunus Vesuvius. "Burbanks Purple Leaf." An excellent flowering plum with rich deep reddish-purple foliage, splendid for a contrast with other shades of green, and beautiful when covered with its small pale pink blooms in spring. Bare roots, branched. 5 to 6 ft., \$1.25.

Crepe Myrtle. See Page 11.

Magnolia. See Page 9.

EVERGREEN VINES

These evergreen trailers unexcelled in hanging baskets, window boxes, rock-work, ground cover.

CREEPING EUONYMOUS

E. radicans. "Wintercreeper." Dense growing trailing vine; can be trimmed to form a low border or hedge; clings to stone or wood. Leaves are dark green with white veins; does best in partial shade. 25c to \$1.00. Rooted runners, 100, \$10.00.

E. radicans. Variegata. Variety "Little Gem." (R.) A rare variety of above. Foliage edged with creamy white, pinkish tinge in winter, 3 inch pots, 25c; 4 inch pots, 40c; 5 inch pots, 50c.

E. radicans vegetus. "Bigleaf Wintercreeper." Trailing evergreen shrub or vine with thick, fleshy stems and leaves and an abundance of red fruit with yellow pods. Hugs close to rocks or wood. 25, 35c, 50c.

HEDERA. Ivy

H. Helix. "English Ivy." 20 to 50 ft. Very dark green, leathery leaves. Old vines have greenish flowers and black berries in clusters. Strong plants, 4-inch pots, 25c each, \$2.00 per 10; 5-inch pots, 35c each, \$3.00 per 10. Larger 50c, 75c, \$1.00. Rooted runners, 75c doz.

H. helix caenwoodiana. A most interesting and beautiful form of English Ivy with small, deeply cut, deep green leaves with contrasting whitish-green veins. Particularly fine for shade. Zero. Potted, 25c.

H. helix conglomerata. Very interesting for pot culture. One-inch leaves crowded on the stem. Trails slowly. Potted 25c.

H. Helix dentata aurea. Very large leaf with wide border of gold. Rare and extremely beautiful. Potted, 25c to 75c.

H. Helix. "Emerald Gem." A strong growing variety with small leaves, veined white. 25c to 75c.

H. Helix hibernica. "Irish Ivy." Similar to the English Ivy except that the foliage is smaller. Quart containers, 25c to 75c.

H. Helix marmorata. A variegated small-leaved form of the English Ivy, with the leaves beautifully mottled in shades of cream and deep green. Quite hardy, potted, 25c to 75c.

H. Helix tri-color. Small leaf variety with green and white variegated foliage, the edges of which turn red in fall. Potted, 35c.

H. Maderensis. "Variegated Algerian Ivy." Fine large leaf ivy with light green center and broad margin of creamy white. Edges turn pink in fall and winter. Splendid on tree trunks or indoors. Potted, 25c to 75c.

H. Cordata. This is an elegant Evergreen Ivy with leathery black-green, heart-shaped leaves. Potted, 25c to 75c.

PERENNIALS SPRING BULBS ROOTS-FERNS GRASSES-SEED

STOCK LISTED ON THIS PAGE POSTPAID TO 4TH ZONE

PERENNIAL PHLOX

This old time favorite in new and better colorings and form is regaining its rightful place as a summer long bloomer.

20c Each; \$2.00 Doz., Postpaid

Baron Von Heeckeren. Delicate salmon pink.
Colonial. Very fine lavender.
Coquelicot. Red with salmon eye.
Firebrand. Orange scarlet. Large showy tresses.
Hauptman Koehl. Large Blood Red.
Lothair. Bright crimson.
Prof. Virchow. Bright salmon, overlaid scarlet.
Miss Lingard. Waxy white.
Saladin. Brilliant orange-red.
Special French. Beautiful clear pink.

ORIENTAL POPPY

35c Each. 3 for \$1.00

Jeane Mawson. Large peach pink.
Lula A. Neeley. Brilliant oxblood-red.
Mandarin. Splendid scarlet. No spot.
May Sadler. Salmon pink. Large flower.

CHRISTMAS ROSE

Helleborus niger altifolius. A hardy Evergreen perennial that blooms from late November to February. Four-inch white flowers on long stems. True divisions, 75c each.

H. orientalis hybrids, of large foliage and flowers. Comes in various shades of pink, maroon and dotted and striped. Seed grown, 2-yr. plants. Color not determined until 3rd year. 50c-75c each.

ORNAMENTAL GRASSES

(R) **Ribbon Grass.** Striped green and white. 15c.
(R) **Carex grass.** Flat growing. Striped white. 20c.
Pampas Grass. White plume. Clumps. 35c to \$1.00.
Arundo. Bamboo-like. 50c to \$1.00.
Arundo. Bamboo-like. Variegated, Creamy white. Divisions, 35c to \$1.00.
Bamboo. Evergreen. Fine foliage. Grow to about 6 ft. 25c to \$2.00
Orhiopogum. Japanese Grass. 6 in. high, with jewel-like blue berry, 25c.

MALLOW MARVEL

Hardy Hibiscus

Giant hibiscus-like flowers in satiny pink, white, red. Hardy, showy tall perennial, 35c; 3 for \$1.00.

Outdoor Ferns

***Woodwardia.** Giant Fern. 25c. \$2.50 doz.—also at 35c and 50c each.
*(R) **Maiden Hair and Five Finger.** Hardy. 15c, 25c.
***Sword Fern.** 15c. 25c.
***Lady Fern.** 15c. 25c.
***Deer Tongue.** 15c. 25c.

Perennials

Postpaid to 4th Zone, Except as Noted.

Anchusa myosotidiflora (R). The early Anchusa, flowering with the tulips. One of the most charming spring plants. The flowers are much like forget-me-nots, and the leaves make an attractive clump of foliage all season. Distinct and superior to better known Anchusa. Happy in dense shade. 25c, 35c.

Aquilegia. Columbine. Long Spurred Hybrids. Strong 2 year mixed. 25c. Blue shades, 25c.

Aster. Fall. Michaelmas Daisy. Purple, Blue, Gray, Pink, Red. Divisions. 25c.

ASTER FRI KARTI

"Something old, something new,
Something borrowed, something blue."

This couplet explains the origin of this brand new long-blooming (Summer to Frost) hardy large blue flowered perennial. 2 ft. high. 35c each.

Caladium. Elephant Ear. Large green leaves. For pool side or garden. 25c. Fancy variegated leaves for part shade. 35c.

Cannas. Red, Pink, Yellow. \$2.00 dozen. 20c each.

Dicentra spectabilis. "Bleeding-Heart." The true old-fashioned kind, once found in every garden. Try it in your wild garden, in partial shade, or under trees. We offer finest roots with 3 to 5 strong eyes, 50c each. Smaller at 35c.

Doronicum Clussi. Low-growing with 3 inch wide Sulphur yellow Daisies on long stems. 30c each.

(R) **Felicia Petiolata.** Pink. Trails. For sun. 15c.

Geum. Red 2 yr. 15c; \$1.50 doz.

Heuchera. Coral Bells. Pink. 2 yrs. 25c.

Hemerocallis. Day lily. Bronzy Red. Div. 15c, 25c.

Helenium. 6 ft. Sneezewort. Yellow. Burnt Orange. Divisions. 25c.

Iris. Bearded. 30 named kinds. \$1.25 doz.

Lily of Valley. 85c for 12 eyes; \$5.00 for 100.

(R) **Sedums in assortment.** 15c. \$1.00 doz.

Trillium (Wake Robin). White. Purple. 15c each.

Tritoma. Red Hot Poker, 25c. 35c.

Tritoma. New Hybrids. 25c.

Yucca Filamentosa. 25c to 75c.

Yucca Filamentosa, variegated. Yellow stripes. 50c.

(R) Means suitable for Rock Plant.

We have many other perennials too numerous to list. 15c to 25c

House Plants

Geraniums. Red and Pink, Salmon, White. Single or Double. 20c to 50c.

(R) **Baby Tears.** Tiny Leaves. Drapes over pot or rocks. 15c.

Sprengeri Asparagus Fern. 25c to 75c.

Boston Fern. \$1.00 to \$2.00.

BULBS

TUBEROUS-ROOTED BEGONIAS

Plant January to May. We can supply Giant Double-flowered. Similar in form to a beautiful double rose, in Orange, Pink, Scarlet, Crimson. Strong Selected Bulbs, 15c each; \$1.50 per doz.; \$2.75 for 25 (plus 3% tax), postpaid.

GLADIOLUS BULBS

Superfine Mixture. 20 varieties. Large flowering size bulbs, 35c dozen; \$2.75 per 100.

TIGRIDIA BULBS

Mexican Shell Lily. Lovely permanent garden subject; mixed, peach, orange, reds. 15c each; \$1.50 doz.

DAHLIAS

Fine collections from large grower. 12 for \$2.00; 6 for \$1.25. State whether cactus, decorative or pom-pom type are wanted. Postpaid.

PEONY

Fine 3 to 5-eye roots in Pink, Red, White, 35c.

GROUND COVERS

Ajuga Reptans. (R.) Forms close carpet of bronzed purple leaves. Blue flowers. 4 inches high. Best in part shade. Runner plants, 50c dozen; \$3.50 per 100.

Irish Moss (R.) Rice green and compact. Use between stepping stones, etc. \$1.50 per flat, collect. Divisions 15c each prepaid.

(R) **Myosotis.** For-get-me-not. 3 for 15c.

(R) **Nepeta Glechoma.** Mint, blue flowers. 35c doz.

Pachysandra. Ground cover for shade. Div. \$1.50 doz.

(R) **Plumbago.** Lady Lapente. 6 in. high. Blue flowers. Leaves take on autumn colors. 25c.

Vinca. Periwinkle. Blue flowers. 15c. \$1.50 doz.

Vinca Periwinkle. Variegated. Cream leaves. Blue flowers. Fine in window boxes. 15c. 25c. 35c.

The Frilly Leaved Fountain Chestnut

★

Novelty. Originated in our nursery from a chance seedling. Nothing like it has previously been grown. Its beauty is in the diverse character of the leaves and their habit of growing straight down, giving the tree when well grown, the appearance of water falling from a fountain. No two leaves are alike, the outer ones being exceptionally narrow and twisted, giving the tree a most unique and attractive appearance. Plant this tree on avenue, for shade or as large lawn specimen. It will give your place distinction. Vigorous, 1 year trees about 1½ to 2 ft., \$1.00 each; 1 to 1½ ft., 75c.

LEAVES OF FOUNTAIN CHESTNUT

No two of which are alike. Those shown above were taken from same tree.
